Option and stock investing involves risk and is not suitable for all investors. Only invest money you can afford to lose in stocks and options. Past performance does not guarantee future results. Trade examples are simulated and have certain limitations. Simulated results do not represent actual trading. Hi.

My name is Chris Verhaegh.

And for just over 4 years now, I've been teaching people just like you how to make money from home on your own time without a lot of hard work, and with hardly any financial risk. And based on the results my students have consistently been getting . . .

My “WIN™” System Truly is the Easiest, Most Hassle-Free Way to Make Yourself a Lot of Money Each & Every Week Without Betting the Farm

“WIN” stands for “Weekly Income Now” . . . and it has *several* advantages over other ways of making money:

- **It's Fast.** You could get your first big “pay day” in just hours.
- **You Need Almost No Money to Do This.** And there's no inventory, buying or selling real estate — and no need to own risky stocks. (*You can start with as little as \$300!*)
- **It's Simple.** I've taught everyone from uneducated

People can and do lose money trading options.

single mothers to elderly widows to do it successfully. Just follow 3 easy steps . . . there's nothing to think about. You could make thousands of dollars, week after week — even if you've never made money on your own before.

- **It's Fun.** No boring busywork. No employees, inventory, or complicated paperwork to hassle with. Just fun!
- **It Gives You the Freedom of being your own boss** — but it's EASY and you can do it from home in addition to (*or instead of*) what you do now.

But please understand — this has nothing to do with network marketing, “nothing down” real estate, franchises, import/export, owning stocks or buying commodities, or launching an internet business.

This is safer, more effortless, and potentially more profitable than **any** of those . . .

PLUS . . . it only takes about 15 to 30 minutes a day to do — depending on how “hard” you want to work! And it can give you a handsome “pay day” every week . . . deposited directly into your account — no questions asked.

But there is some bad news.

The fact is — I don't know how much longer this opportunity will be around.

Why?

Quite frankly, it's simply because, according to top experts . . .

America Is Staring Financial Devastation Dead In the Face – and There’s Not a Single Thing **ANYONE** Can Do About It

My best advice is this:

Get As Wealthy As You Can – While You Still Can

And that’s why I’m writing
you today.

America’s financial
foundation has been shaken to
the core.

Now I know that (*to most
people*) the situation actually seems
to be getting better in America. Stocks
seem to have recovered all their losses. Real
estate seems to have rebounded. And even
unemployment and bankruptcies seem to have
dropped.

But here’s the thing:

Our government is “fudging the numbers”. And the
reality is that Americans are in a much more dangerous
and precarious place today than we were six years ago . . .
during the banking crisis. And it won’t take much to bring
our way of life and this country to a grinding halt.

I probably don’t have to tell you this — the coming
devastation is related to the financial crisis of 2008... but
it is much more dangerous. Fact is, many experts believe

there'll be a near-complete shut-down of the American economy.

- ✓ **Life as we have known it for more than 40 years will essentially cease to exist**
- ✓ Our governments on both the Federal and State level will flat-out shut down
- ✓ **Banks will stay closed**
- ✓ Businesses will nail their doors and windows shut (at the very least)
- ✓ **And some wouldn't be surprised to see martial law kick in — put in place by the U.S. military**

Believe me, I don't share these things lightly — and just between the two of us — I have ZERO interest in trying to scare you. In fact, I'm one of the most optimistic people I know! And chances are . . . you are, too!

But the facts don't lie . . . and all you really have to do is look at history (*both recent and past*) and see where countries who've gotten themselves into this financial pickle end-up . . . and you'll see this is just following facts through to their logical conclusion.

That's why — before I go any further — I really need to warn you . . .

What you're hearing here is pretty darn controversial. And I know this is going to tick-off a bunch

of people who read this... Democrats, Republicans, and even Tea Party members.

The ideas being tossed around may seem a bit radical at first... perhaps even “un-Patriotic”. The truth isn’t always easy to hear.

Ultimately, I’m guessing that as you read this letter... you’re going to say:

“Chris . . . there’s just no way this could really happen... not in America!”

But again . . . just look at recent history — and remember this:

- *No one* thought that 6-years ago the world’s largest mortgage bankers — Fannie Mae and Freddie Mac — could possibly go bankrupt. It just “wasn’t possible”. Right? But they did . . .
- *No one* believed GM could go bankrupt... or that bankruptcy would hit General Growth Properties (*the biggest owner of mall property in America*). Right?... but they both went bankrupt.

And although the “powers that be” like to say otherwise . . . **these same financial problems are now worse — and they are threatening our very way of life.** The savings of millions of innocent Americans have

been — and will continue to be — wiped out.

At the very least . . . you have to agree that the next financial disaster to come along (whatever it is) could change everything about your normal way of life: where you live . . . where you send your kids or grand kids to school . . . how and where you shop . . . the way you protect your family and home.

Ultimately, you have to decide for yourself if the experts are full of hot air. But I've never been more afraid for my family's future — that's why I've taken some pretty drastic steps to prepare for what the experts think is about to happen next.

You see . . . all you need to do is a “gut check” . . . and you'll realize that Americas trillions of dollars of debt are NOT just going to magically vanish overnight.

Right?

Do that same “gut check” and it becomes obvious . . . these “too big to fail” bailouts have BIG consequences. And this is all going to come to a head much, much sooner than most Americans think. You may not think things are “that bad” with our economy . . . or that the government spending is not “that bad”. But consider this fact . . .

Every single hour of every single day, our government spends about \$200 million. That's \$200-million per hour. Money that they do NOT have.

To help you wrap your brain around it . . . consider this — **in just two months**

— the government borrows more money than the combined annual profits of the 100 biggest publicly traded companies in America.

Isn't that just jaw-dropping? But you'll never see this fact reported anywhere else. My point is this:

The Rich **ARE** Getting Richer – the Poor **ARE** Getting Poorer

Like it or not . . . the divide between the haves and have-nots IS getting worse really, really fast. Consider this fact:

In 1980, the top 1 percent controlled about 8 percent of U.S. national income. The bottom 50 percent shared about 18 percent.

Today the top 1 percent share about 20 percent – the bottom 50 percent, just 12 percent

Trickle-down economics has screwed the American middle class — as well as our economy in general.

Wrap your head around this:

During the past three decades, compensation for CEOs grew 127 times faster than it did for workers. Since 1950, the CEO-to-worker pay ratio has increased 1,000 percent, and that is not a typo. CEOs used to only earn 30 times the median wage — now they rake in 500 times. They're getting richer . . . while . . .

47 Million Americans Are Now on Food Stamps

That's a whopping one in 6 people according to the Washington Post! Can a country really be in good shape when one out of every six of its citizens can't even afford to buy food? And...

43% of American Families Are Broke — They Spend More Than They Make

This comes from a recent article in MSN Money.

Every Month, 14 Million Americans Get a “Disability” Check From the Government

Even worse . . . America is NOT growing jobs. That's because the government is making it harder and harder for a business to thrive.

And with all the government's money-grubbing, back-scratching, self-serving regulations in the way — our country will never experience the type of growth we need in order to dig our government out of the hole they've put themselves in. The rich are, without doubt, getting richer . . . think about this:

85 Super-Wealthy Americans Now Have More Money Than the Poorest 3.5 Billion on the Planet . . . Combined

And they'll just keep getting richer — after

all . . . the global economy is structured to systematically funnel wealth to the very top 1% — and this centralization of global wealth is accelerating with each passing year.

There is something deeply, deeply broken about a system that produces these kinds of results. Yet these are all frightening truths — realities that are happening right under your nose. I could go on and on . . . but you already know this stuff — and you can certainly feel it in your gut.

The opportunities for the “little guy” to get crazy wealthy are vanishing fast — if not mostly gone already. In essence . . . it seems as if “the rich” are hoarding all the wealth. In fact . . .

80% of the US Stock Market Is Now Controlled by the Wealthiest Corporations & Institutions

That’s right . . . according to the latest research from TrimTabs.com and Jupiter Research, **approximately 80% of all stock market transactions these days are being run by institutional investors.**

A Whopping 80%

Who are the 80%? They are the big investment banks, hedge funds, mutual funds, fat-cat insurance companies, pension funds, and private foundations to name a few.

It’s also the Federal Reserve. (*In fact, the Fed is one of the biggest institutional players in the market!*) And even most of the bigger companies themselves (with their billion dollar balance sheets) are powerhouse investors.

This Research Means 80% of the Stock Market – Trillions Upon Trillions of Dollars – Is Being Run By Just a Few Thousand Firms

Which leaves the 20% — that’s people like you and me . . . our IRAs, our retirement accounts, etc. And even though there are millions of “you and me’s” — we’re now the marginalized minority out there. Call us the market’s “peons!”

Is there any going back?

No.

There’s too much money and power concentrated at the top, and it’s inter-connected with the right, powerful people. It’s too much of a good thing . . . **there are more “Haves” AND “Have-Nots” than at any other time in history.**

Now in a minute — I’m going to show you how this is actually GOOD NEWS for you.

Besides . . . isn’t that what’s really important here — ultimately — the most important part of this situation is not what’s going on in America... but rather . . .

What Are You Going to Do About It?

In other words... whatever the next financial crisis is — and I’m sure it will be a doozie — but what are YOU going to

do about it — for YOU — while there's still time? **Now's the time to get rich, my friend — while the getting is still good.**

And that brings me to this — the sliver of hope — the **GOOD NEWS**
I promised you right from the outset of this letter . . . it's this:

As the Rich Get Richer – It Presents an Opportunity for You & Me – the “Little Guy” – to Ride Their Waves

Let me explain . . .

Imagine the stock market being a huge Ocean . . . it's gigantic. Imagine one of these giant institutions (big banks, brokerage firms, insurance companies, etc.) setting sail. Now I don't picture these institutions as little sail boats, or even larger yachts. No . . .

I Look at Them As If They Are Giant Oil Tankers or Aircraft Carriers.

When they take to the sea, they create their own waves . . . waves that go on for miles and miles. So when they move money around — it's not tens, or thousands of dollars. It's millions, billions, or trillions of dollars that they have to shift.

Remember, these outfits are massive in terms of the amount of money they can throw around. In fact, they're bound by certain regulations in what they can and cannot do. And when they can and cannot do it.

But the point is . . . **when they make a move — they create serious waves.**

Now imagine an independent investor — a normal guy like you or me. If we move some money around in the stock market — even if it's a \$100,000 IRA — you and I don't show-up as a water drop! Hell, we don't even show-up as a drop of MIST!

But here's where the opportunity lies . . .

**You and I Can Ride the WAVES These
Giant Institutions Make . . . and Easily
Capture More Than Enough of a Profit to
Live On – and Even *Retire On***

Even better — when you do this like I'll show you in a minute — **you won't take on the normal full-tilt RISK that comes with “normal” stock market investing.** In fact, you won't need to buy a single stock to do this.

When you boil it down — we are just riding the coat tails of the rich as they get richer . . . it's the easiest, most hassle-free way to make a lot of money — quick — while risking barely one thin dime of your own.

I'm going to show you exactly what I'm doing, so you can get as wealthy as you possibly can while the opportunity still exists . . . are you ready?

I hope so.

That's why I wrote this letter. I can't promise you'll emerge completely unharmed if our financial system finally does collapse. I hope the experts are wrong, but I guarantee you'll be a lot better off than people who don't follow these simple steps.

And with the way I approach things — you'll find this is like having your own, home-based business — but without the headache of inventory, customers, employees, deadlines, and outrageous financial risk. It's much easier than any of that. And when you do it right . . .

There's Practically No Financial Risk . . . and **UNLIMITED** Upside Potential

When I first heard about it, it seemed too good to be true. And — it may seem like that to you, too. That's why I've gone to the expense of putting together this detailed letter to explain and teach you exactly what this is — and how it could potentially make you more money in a matter of minutes than you now make working all month at a regular job.

I'm going to PROVE to you,
right here in the following pages,
why I believe my "*Weekly Income Now*"
system is the **BEST** way to
make money on earth.

First off, I want you to meet some of my students who were so thrilled with the “WIN Income” business that they wrote or called to tell me how happy they are to be making so much money with such little effort. Let’s start-off with a few emails that were in my “IN” box this morning:

From Jon — *“With the help of your videos I purchased a few puts on LVS and over **150% profit today** . . . Thanks . . . looking forward to much higher returns.”*

From Hammer — *“I sent a question a day ago regarding LVS. I went ahead and purchased 4 contracts of 76.00 calls at .25 each for a total expense of \$100.00 before commissions. I placed the order on Thursday evening (May 8) and was promptly filled Friday a.m. 13 minutes later, I exited my position at a price of .51 each....**DOUBLE my money in 13 minutes!!!**”*

Sylvano bought at 84 cents and sold for \$5.14 — he made 6 times his money!

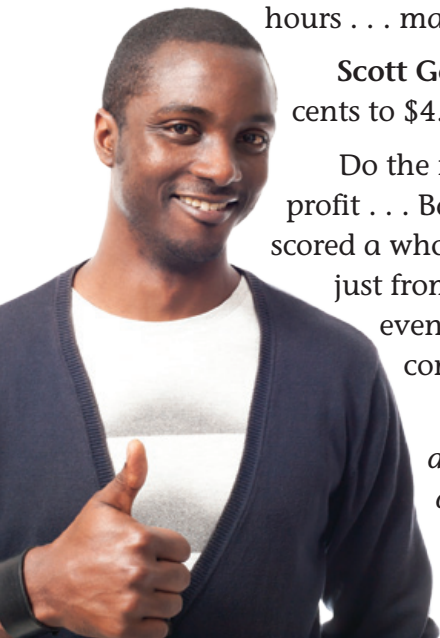

Basttien went from 25 cents to \$1.45 in less than 2 hours . . . making 4.8 times his money.

Scott Gow did GMCR — it went from 50 cents to \$4.50 — 9 times his money!

Do the math . . . Sylvano made 612% profit . . . Basttien made 480%... and Scott scored a whopping 900%. And that’s all just from TODAY’S email! And it gets even better . . . take a look at these comments from students:

“I’ve taken quite a few courses and I’ve not seen anyone with Chris’s ability to make the path to winning so obvious. He’s just so clever.”

Richard D., Business Owner

“I like the freedom of not being tied to a computer . . . it’s very compatible with who I am. Almost every week is profitable . . . cash flow in the black gives you the freedom to live life on your own terms. And that’s what we all want, isn’t it?” **Michael L., Retired Professor**

“Profits like this allow you to accomplish some pretty spectacular things . . . pay for college . . . own a vacation home . . . whatever. I’ll probably use my Tesla profits to buy a new car.” **Brian H., Commercial Pilot**

“Nothing compares to the peace of mind you get from knowing you can make money no matter what the economy does . . . with four kids counting on us that’s a very big relief.” **Christy & Doug**

“I might make \$4,000 or \$5,000. Or I might make \$600. As long as I’m making money I’m fine either way. And Chris’s strategies fit quite well into what I was already doing on my own.” **Mark H.**

“But, do you want to know what’s most amazing of all? Not only will Chris’s approach make you a lot more money than what everybody else does, it’s a heck of a lot easier too!” **Robert S., Retired Mortgage Broker**

These folks weren’t paid in any way for their stories. They openly share their experiences to show you how my program has changed their lives.

These are all people who had your very same dreams of financial and

personal freedom . . . real people . . . who found out there IS a better way to earn a living. A way to get wealthy in spite of what the government does next to ruin the land of opportunity.

These folks all followed the same simple system and are now enjoying life on their own terms. But more importantly — as far as proving why I believe my “WIN Income” business is the BEST way to make money on earth — you need to know something about me:

I don't just teach this – I actually FOLLOW the exact same system. In fact, I perfected this system by actually *using* it.

This is something I ACTUALLY DO each and every day – because I love it! I've done it for years . . .

And naturally, once people saw how much fun I was having staying home, taking my family on fun trips around the country, and just enjoying life in general — they wanted to know my “secret”. But look . . . I'm NOT looking to keep this secret!

After all, there's no competition with my “Weekly Income Now” system — so the more, the merrier! It's become my life's mission to share it, in fact . . . and **I've made it my life's**

work to prove that it IS possible for average people to make millions of dollars without a lot of hard work and with almost no financial risk.

But that's not just some "hot air" statement I'm throwing out there.

It's a promise!

In fact, I'll give you my personal guarantee that this "Weekly Income Now" money-making opportunity will not require you to gamble your savings or risk your family's future. **And you won't have to go into debt, or hit-up your family and friends for ANYTHING.**

Here's my personal guarantee to you — in writing:

Your "100% or MORE" Satisfaction Guaranteed – or You Get Your Money Back!

The trades posted for my "Weekly Income Now" Trading System must generate at least 100% or MORE in pure profits across all trades (*including winners and losers*) — within 6 full months of your purchase date — or I will refund every penny you paid for the "Weekly Income Now" Trading System.

No questions asked, no fine print. This service must generate that level of performance within 6 months, or you can request and receive an immediate refund.

You have the potential to make as much money as anyone else, and I'm going to give you the tools you need

to make it happen.

I want you to see for yourself that this is even better than you imagined . . . and that's why I'm willing to give you such a generous guarantee. If my performance doesn't generate 100% or MORE in pure profits — we'll part friends, and you'll get a full refund of the purchase price.

That's my promise to you!

But I honestly think you won't want your money back. I think you're going to love this. In fact, I know you will — because . . .

You Can Make More Each Week Than You Probably Make Each Month at Your Current Job

And you can have the freedom to work when you want. The way you want. (*One of my students recently wrote to say he works in his pajamas! Ha! Imagine that!*)

Take a minute and think about how YOU would like to work — and what you really want from life. How about having the potential to make all the money you needed — for the rest of your life? Without being tied to a job, or having to “kiss-up” to a boss? With no more worries about job security, possible layoffs, or how to stretch a too-small paycheck?

How about being able to provide for your family — and to afford whatever you desire, with no concern about the

cost! A new home, a sports car (*or two!*), big flat-screen TVs for every room in the house, a dream vacation — every year — no matter what happens to the US economy!

And having the ability to spend what you want and know you always have the potential to make more and more, every single day. You'll have the potential to live the life of your dreams.

It's a whole new, unlimited way of thinking about money... knowing it could truly be yours in abundant supply!

This is where the “Weekly Income Now” Business can take you.

And the “WIN” business is different than any other moneymaking opportunity on the market. There's virtually no limit to how much you can earn. And this is a real business that you can run from your own home.

But before I tell you more about what it is — let me tell you what it is not:

It is **NOT** some MLM, Network Marketing, or Pyramid Scheme – it's **NOT** a get-rich-on-the-Internet program – it's **NOT** a program where you buy my catalogues or products to stack-up in your garage – it's **NOT** a high-priced franchise – it does **NOT** require any special degrees – and better still, there is **NOT** selling involved.

Truthfully, when I first discovered this, I was skeptical. It sounded too good to be true. But even though I had my doubts at first — I rolled up my sleeves and ironed out every last detail you'll need to make money with “WIN” — the easiest, most hassle-free way to make a lot of money —

quick — without risking much more than one thin dime of your own.

Now . . . with that out of the way — let me tell you a bit about what the

“WIN Income” system IS about . . . even if you’ve never heard of the “WIN Income” system (*most people haven’t*) — **it can be the key that opens the door to your financial freedom.**

All it takes is a little time and a small amount of effort to potentially earn thousands of dollars — even more — with your very first deal.

And what makes this even MORE exciting —

You Can Start Making Money Just DAYS After Getting Started

I’ll show you how to do it successfully right from home. All you need is a computer with an internet connection to access my private information.

Is that realistic?

You bet it is . . . and the biggest myth you’ve been sold is that it takes money to make money — or that you need a college degree to be successful. **The truth is anyone can**

make a ton of money or even become a millionaire — without a bunch of seed-money, a college degree, or even talent.

You certainly don't need an MBA or any college degree. I never got one. In fact, this business was easy to figure out, learn and understand — and then put into action. It's actually really simple . . . plus this business is fun. And it's easy.

You don't need any experience at all. In fact, you don't have to know a thing about the stock market right now. All you need to do is simply read the manuals in my “WIN Income” business kit and follow along — step-by-step — and you can succeed.

It really is that simple.

But Don't Take My Word For It . . .

The “WIN Income” System Has Been the Ideal Home-Based Business for Hundreds of People Across the Country – Take a Look at Some of Their Results . . .

IMPORTANT NOTE: Due to the confidential nature of personal finances, many of these testimonials have only initials or just first names. But these comments are all real and they ARE on file in my office. What's more, many of these students are consistently making large sums of money — and I want to respect their privacy.

I will respect your privacy in the same way once you send me your success story. (These success stories are from some of my top students. You could make more or less. Individual results vary. See notice, page 3.)

The experiences these students share here are living proof that this is absolutely for real. They have not been “paid” for their stories — they all simply want to show their appreciation for this program by encouraging others

through their success with the “WIN Income” system.

- ★ **Jeff C. spends 30-minutes or less almost every morning** — *“Within a week it made 540% and I was ready to quit my job!”* After all, that’s enough to turn \$1000 into \$6400 . . .
- ★ **Diego V. gets in, grabs his money and gets out quick . . . riding the coat tails of the wealthy** — he says *“I try to get in and get out real quick on Friday and double my money in a low-risk trade.”* That’s \$2,500 into \$5,000 — or \$5,000 into \$10,000 . . .
- ★ **Mark H. will put in a limit order and walk away** — he exclaims: *“Of course, when you quadruple your money it’s more exciting.”* What if you could turn \$5,000 into as much as \$20,000+ using the method Mark did?
- ★ **Jeff W. started out just “pinch-hitting” for his big brother** — saying: *“The next day I closed the trade with a \$20,000 profit — WOW . . . this is amazing!”* \$20,000 profit in a single day?
- ★ **Jake N. trades before going to work on Mondays and Fridays** — saying: *“That’s like 1,000% in a matter of hours!”* That’s like turning \$5,000 into \$50,000 — amazing!
- ★ **Michael L. does just one income producing trade a week and says:** *“Almost every week is profitable. Gives you the freedom to live life on your own terms.”* \$10,000 . . . \$20,000 . . . even \$50,000 or more — would that help YOU live more on your own terms?

★ **Doug and Christy receive my weekly alerts** (*more on that in a minute*) **and then place their trades.** Perhaps they say it best . . . *“Nothing compares to the peace of mind you get from knowing you can make money no matter what the economy does.”*

★ **Joseph Banta said:** *“I think this is the first time I’ve ever complained about only making 500% on my money. Keep it up.”*

I’ve got dozens and dozens of comments from wonderful people just like you — I could fill pages and pages with success stories like these.

But the one thing you need to realize is this:

These People Are Just Like You

They’re all ordinary people who had a sincere desire to get OUT of the rat-race . . .

. . . people who wanted to have more time to spend traveling,

. . . spend more time with loved ones, and just flat-out get more out of life.

. . . people who had a sense that “there must be more to life than this . . .” and they went out and *TOOK ACTION* to

do something about it.

They're all people like you . . . people who want to improve their lives — and with my proven system, you can improve your life too.

You want more out of life . . . don't you?

You want to live the “good life” . . . right?

Well, my friend . . . I want YOU to be able to retire whenever you choose. With enough money to live the way you want.

That's why I created the “WIN” Business — a moneymaking opportunity that can be your ticket to the life of your dreams.

You'll learn the same system that has worked for me and countless students who have made MILLIONS of dollars, doing this just a few minutes a week from home.

Now please understand: Just because it's simple to learn, and easy to implement doesn't mean this is information you can find in the library — or find in any books out there in the mainstream. And you definitely won't find this information in the curriculum of the top universities of the country.

You'll be learning my best secrets on how to be successful with the “WIN Income” system. And let me tell you . . .

**Nothing Compares to the Peace of Mind
You'll Get from Knowing You Can
Make Money No Matter What the Economy Does**

Now, earlier I documented the fact that there are more “Haves” AND “Have-Nots” than at any other time in history. I also promised I would show you how this is actually GOOD NEWS for you. It’s time.

How We “Ride the Coat Tails” of the Rich to Build Our Own Wealth

As I alluded to . . . what the “WIN” Income System essentially does is take advantage of the rich as they get richer. How we’re doing this is by riding their coattails as they create wealth and “waves” in the stock market.

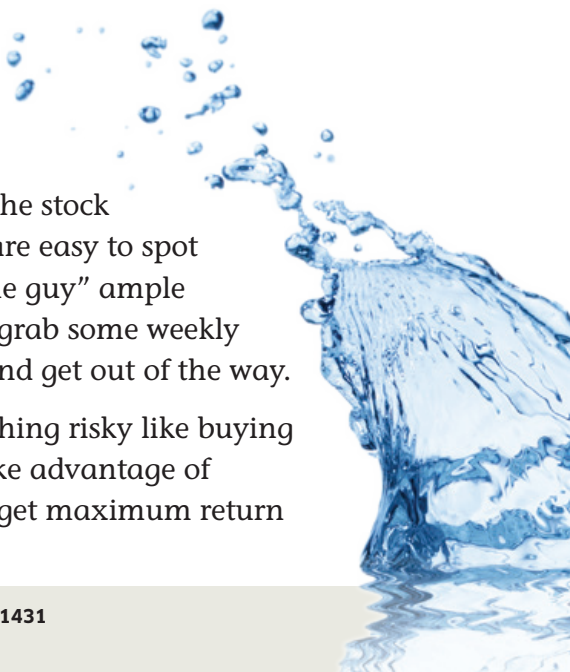

Remember how I said the rich now make up 80% of all the investing activity that takes place in today’s stock market?

Well . . . that’s the truth. And guess what?

When these big “fat cat” companies and hedge funds move their money around in the stock market — they move millions and millions of dollars at a time.

And every time they make a move . . . they create a giant “splash” in the collective swimming pool we call the stock market. These splashes are easy to spot — and they give the “little guy” ample opportunity to jump in, grab some weekly income, and jump out and get out of the way.

But we don’t do anything risky like buying a stock . . . we simply take advantage of options that allow us to get maximum return

with minimized risk.

Can you lose money?

Of course.

Can you lose money starting a dry cleaning business?... a franchise?... a sandwich shop?...

Of course!

There is no “reward” without risk . . . plain and simple. It’s just a fact of life. But with what you’ll discover inside my “Weekly Income Now” training, you choose how much you are willing to risk at each and every turn.

And you always know going into it how much you could possibly lose — if anything. Even better . . . you also know how much you’re likely to profit.

But please don’t worry if you don’t understand every little nook-and-cranny about how the stock market or how stock options work right now. You may think it’s technical, but you’ll see how simple it all is when you know what to focus on. Especially once you get my “Weekly Income Now” training in your hands. These students were ALL “stock market novices” when they started with me . . . look what they have to say:

“ I spent a lot of money on traditional option training. Then I attended Chris’s seminar and that ushered in a whole new realm. ”

Dr. Rick W. • Retired Dentist

“ I think a lot of people run scared when you start talking about Delta and Gamma and all that. But Chris makes it simple. He tells stories and that makes it very interesting. ”

Diego V. • Contractor, Agoura Hills, CA

- “ Before Chris’s course I would NOT have believed I could do this . . . I didn’t even know what an option was. But Chris took the mystery out and made it easy. Chris teaches you how to eliminate guesswork and have the confidence to pull the trigger at just the right time. Last Friday, for example, we bought 5 Goldman Sachs Calls for \$15 each. Then we sold them just 37 minutes later for \$162. After commissions profit was \$735 . . . ”

Doug & Christy • Holland, MI

- “ Nearly every Friday I can make as much as 1,000% profit off Goldman Sachs, without even looking at a chart. ”

Robert S.

- “ Last week Chris wrote about Tesla being a ‘Lit-Fuse’. So, on Tuesday I bought 20 Calls for \$0.60 . . . then I bought 10 more Calls for \$1.17 . . . Overall profit: \$17,250 in two days! With a wife and two teenage kids, money is flying out of the house all the time. So I try to use this income for extras.

Like, my daughter’s going off to France with a high school trip and I paid for half of it with trading profits. Profits like this allow you to do some pretty spectacular things . . . pay for college . . . own a vacation home . . . whatever. I’ll probably use my Tesla profits to buy a new car. ”

Brian H. • Long Island, NY

- “ Hi Chris, All I can say about this week is WOW!!! Your methods really, really work!!!! I did directional plays on FAS and GS Tuesday to the tune of 400+% on both of them which is absolutely amazing! On Wednesday, I followed GDJ, and GS down for winners as well!

I now see how your claims of making a lot of money quickly is truly a reality with your system.

I’ve been scammed and followed options systems that were sub-par in the past, so seeing your claims for 200-1000+% smacked of scam. However, I am now a believer. If you take the time to learn your system, and spend some time learning charts – the sky’s the limit! ”

Ron G. • Nashville, TN

- “ Before I met Chris I had no knowledge whatsoever of stocks. In fact I grew up believing the stock market was basically a gigantic casino. So I was fascinated to learn how you can tip the odds in your favor.

My first trade I did on my own really got my blood a-pumping. Within a week it made 540% on Apple Computer and I was ready to quit my job! It takes less than a half hour to set up the day's activity. Then I'm done. It's amazing, really & empowering too! ”

Jeff • Stay At Home Dad, Bremen, ID

- “ Chris, up to \$21,000 as of today, started from \$350 3 weeks ago. No one will believe us! ”

Steve T.

- “ Hi Chris, I was looking for something cheap to trade this morning with fairly low IV before I left home. I settled on TLT. I bought 10 103.5 contracts at the open for .08. I just got out at .46 almost a 6 bagger (6 times my money!). I'm doing it all on my iPhone because I'm having physical therapy today. Technology is wonderful. Take care. ”

Robert Stephens • Apopka, FL

- “ Chris, in my heart of hearts I have never seen something as compelling as the system you have explained. I have tried so many things, spent thousands upon thousands of dollars on other systems with other 'gurus' and literally have nothing to show for it. However, your course has renewed my faith in being able to be a successful trader.

Deep down, I always knew there was something that would work for me. After all, I know there are others out there who are successful so why not me?”

Now that I've seen first-hand how these options prices move I absolutely know this works. I know there is nothing like a predominantly green P/L sheet to show to people. I know you're very busy but I want to make sure to thank you again for giving me the tools to survive and thrive. ”

Mark Politi • Boca Ratan, FL

“ Chris!! First I would like to say to your wife to get well soon!! Health is always first. Then I would like to thank you again for a fantastic trade, got TSLA 3 x 190 call @ 1.53, and exit 2 @ 3.20 in maybe 8 minutes, and 1 later @ 4.80! Very nice Thursday, right? Thank you! ”

Lenka Girtelschmid • Virginia Beach, VA

“ I can't wait to view the next video. I viewed your video on LVS and followed your lead. I then executed a put option trade by purchasing 5 LVS contracts at \$77 strike price for .79 today. In less than 3 hours, I was up 179% and sold them at \$2.21 per share for net profit of \$710. I look forward to your next video in anticipation. Thanks for the tip. ”

Now, If You Happen to Already Understand How Options Work – I've Got Good News For You:

You'll be able to skip that part of my “WIN” training and get right to the fun part: **MAKING MONEY!** And trust me . . . this is a system that can consistently deliver the money . . . weekly paychecks for the rest of your life!

Now you've seen me talk about “weekly paychecks” all throughout this report. Let me explain what I mean by that:

1

“WIN” LESSON ONE:

“Weekly Paychecks” & How They Work

1

Now that you know a bit about options and how they work . . . let's take this one step further. For over 20-years

now, options have been a part of the stock market. But up until recently, the “contract” behind an option agreement has always lasted at least one month.

But in 2005, Tom Sosnoff (*co-founder of ThinkOrSwim online brokerage*) came-up with the idea of offering options agreements that only last ONE WEEK. So Tom and a group of investors got together and pitched the idea to the *Chicago Board of Options Exchange (CBOE)*.

After the regulators signed-off on it . . . the CBOE allowed Tom to run a limited, super-secret “test program”. They had success right away — and the idea of offering investors a high-profit, low-risk investment became a no-brainer. And on June 10, 2010 this amazing new investment vehicle was officially launched.

Here we are a few years later — and weekly options have become so “in demand” that they are now available on around 350 of the most actively traded stocks and ETFs. Weekly options have become the fastest growing investment vehicle on the planet . . . but more importantly . . .

Weekly Options Allow the Little Guy the Chance to Jump in and Ride the Coat Tails of These Massive Institutional Traders & Make a Killing Each & Every Week!

And that’s why I say you’ll be getting a paycheck each and every week. And quite honestly, that’s not really even accurate because . . .

Once You Put “WIN” to Work – You Can Actually Generate Double-Your-Money Returns Using Weekly Options in a Single Day

How about a DAILY paycheck?

It's possible. And since weekly options became available, my track record is 100% documented, with record-doubling and winners soaring as much as 100% to 4000% on a single trade. When you compound the results though — that's when things really start to take off.

How amazing will it feel when you start generating \$5-6k per week using weekly options?

I'm telling you — there's just no better feeling — absolutely nothing compares to the peace of mind you'll get from knowing you can make money no matter what the economy does. And riding on the coat tails of the wealthy is the fastest short-cut I know to make it happen.

2

“WIN” LESSON TWO:

“Why Weekly Options Are So Great & How They Allow You to Ride the Coat Tails of the Rich as They Get Richer”

2

Weekly options are the absolute BEST income-generation vehicles on the planet — and I'll tell you why:

1 Weekly Options Are Cheaper Than Dirt to Use.

Because weekly options have a short “life span” (*they are “born” on Thursday and then expire the next Friday*)

— *just 7 days away*) it means you can purchase them incredibly cheap — like \$10 or \$5 or even just \$1.00 per contract. *This is perfect for anyone who's just getting started or has limited funds to leverage.*

You'll be riding the coat tails of the giant institutional traders for mere dollars . . . where else can you profit from the wealthiest 1% while risking almost nothing?

2 Weekly Options Have Unlimited Potential Profit.

Think about this . . . weekly options can sky-rocket in value when things go your way . . . and it happens a lot more often than you might think. It's not uncommon to see the value of a weekly option swell 500%, 800%, 1000% or more in a single afternoon. Get ready . . . you can't get returns like this anywhere else!

3 Limited Exposure Time to the Market. Because we're only going to be in the market for a few days (at most) — there's limited exposure. Limited exposure means far less risk. Your capital is “at risk” for a far shorter time for a potentially abnormally high rate of return. And remember . . . this happens week, after week, after week. So the potential to compound your gains is quite significant.

Stop and think about this . . . typically, “abnormally high rate of return” means abnormally high risk. But not with weekly options . . . there is

a reduced-risk structure for these high rates of return once you master what I teach you in the “Weekly Income Now” training.

4 It Doesn't Matter What the Market is Doing.

Weekly options are PERFECT for an unstable, shaky market like we're in right now (*and for who knows how much longer*). With what you learn inside “Weekly Income Now” — it absolutely does not matter if it's bull or bear or, for that matter, what the market happens to be doing.

Weekly options can make you serious income no matter what the overall market is up to.

5 Weekly Options Give You at Least 333% More Chances to Generate Hefty Income.

Most options used to expire once a month . . . giving you just 12 chances a year to make some money. But because weekly options expire 52-weeks a year — that means you've got 52 opportunities a year to create yourself another paycheck!

That's a whopping 40 more weeks of potential income that simply didn't even exist before weekly options became available!

6 Weekly Options are the Most Profitable Way for You to Take Advantage of Breaking News.

You can limit your risk, and leverage potential returns the most with Weekly Options. And taking advantage of earnings announcements, government press conferences, and other weekly news becomes a cinch when you use weekly options. (*I'll give you the full scoop inside of “WIN”!*)

“ Just a note. I am gone when the market is open so I am a bit more careful. Thursday at 9.39 I bot 5 143 puts on TSLA at .42. I then placed an order to sell at 1.50 and left. My order was filled 2 minutes later according to my computer. You suggested puts no matter where it opened and it worked. \$210 to \$750 is 257% profit in 2 minutes. ”

Gordon S.

“ Just to let you know that I bought the August 2 Mastercard \$605 put at 0.80 on the open and sold it three hours later at \$12.35. It got as high as \$37.10. Is 1443% something of a record?? ”

Richard

“ I wish you and your family a very happy thanksgiving. You are an enormous blessing in my life. It's because of you that I can at last retire from WalMart. I'm very grateful to God for sending you my way. Thank you and have a safe holiday. ”

Katherine

“ I got in SLB early this morning and got out with \$1000 profit in 15 minutes. I enjoy your service very much. Thanks again! ”

Tak Y.

“ As a newer student of 3 or 4 months, I had a great week trading your system. Here are my results: Bought one contract TSLA nov 149 put for 1.38, sold for 6.0 \$138 into \$600 - 335% Profit Bought 3 contracts Nov ANF 35.5 puts for 0.38, sold two for 1.06 and one contract for 1.85. \$185 to \$397 115% Profit Bought one contract SCTY Nov 54.5 call for 1.2 and sold it in less than 4 minutes for 2.0! \$120 to \$200 67% Profit in 4 minutes. It's only Thursday so looking forward to Friday's NFP report. ”

Dave L.

“ I am a fairly new student to your service, although I have been trading for many years. I love the metals and trade apple options a lot. On the 13th at 9:33 central I bought 2 Aug. 485 apple calls for .85 each. After Icahn opened his mouth and apple took off I sold 1 call at 10:27 on Aug 14th at 15.25 and the other at 12:06 for 16. Apple at 500 that was my objective. 1500+% and 1600+%. I have never done that before in my life. I want to thank you for all that you are teaching me. From last Mon the 5th of Aug. I am proud to say my new IRA went from \$175 to \$4800 in a week and a half. My gold and silver options are heading upward as well. I am not sending this email to brag, but to say keep up the good work. ”

Steve V.

“ Great talking with you yesterday. I've closed out my positions. Very happy the results are below;

- 11/7 Bought 400 VXX 13 Calls at .02

 Done trading for the day and going out to rake some leaves, have a good weekend! ”

Brian

“ First of all thank you, thank you, thank you. I have been looking for this for a long time, I knew the weeklys were out there but didn't know how to play them. Yesterday GDV 1000% move actually a little more. And today I am up 200% again. I really appreciate what you have done. THANK YOU. ”

Jeff Ross

“ I appreciated what I saw in the WIN videos. It was an eye opener to say the least. I have been trading off and on since 1999 - mostly options. The approach you have developed is one of the best I've seen in quite a while, and I have seen several and tried several. I bought 5 of the weekly May 16 GMCR \$115 Call options at \$0.18 when the stock was at \$108.70. I figured \$90 would be a nice experiment on the principles you shared with very little risk. It was impossible to know that on May 13, the very next day, Coca Cola announced an increase in its ownership of GMCR from 10% to 16%. I sold the \$115 Calls at \$6.45 for a one day 3,483% profit!! My \$103 investment (plus commissions) turned into a \$3,212 payday! I am looking forward to your service to say the least! ”

Elliott C.

“ I have been a student for about a year now. This year I decided that I would concentrate on one option – that of TSLA (Tesla)

- On 1/14/14 I Bought 3 shares of TSLA \$140.00 Call for \$2.23 totalling \$669.00
- On 1/15/14 I Sold the 3 share of TSLA for \$30.60 totalling \$9,180.00.

That's a profit of \$8,511 on Tesla . . . a 1272% profit in one day. Each week since then I have been making a profit of about \$450 - \$750 per week. What a great Option. ”

Audrey E.

“ This Tuesday was great! I traded for the FOMC event and I traded TLT and GS, and net a profit of \$28,000 in one day, starting with only \$8900. Thank you!! ”

Enrique M.

“ Just wanted to let Chris know that his system is great. I have only been a member for a short time and am really enjoying the info and trade set-ups. Bought 20 contracts of GDx 52 Call on Monday at \$0.08. Risked \$160. Bought 20 contracts of GDx 49 Put on Monday at \$0.13. Risked \$260. Held until Wednesday. Sold Put at \$2.67. A nice 2050 % gain. My \$260 went to \$5340. [1953% Profit] Very happy for this trade. I am trading with a small amount of money, so I made my profits for the year in one trade. Wow! Thank you very much! ”

Keith N., Ingersoll, Ontario

“ My OEX account is up \$8,237.44 just on these 4 trades. I'm ecstatic! I'm a new subscriber and have been paper trading based on your weekly newsletter. Feeling comfortable, I finally made 4 live trades: a Sep 13 GDx Straddle & FAS Strangle and on Oct 4, the GDx & FAS Strangles. On both occasions, I got in on Thursday and out on Friday.

To date: after commissions and fees, my OEX account is up \$8,237.44 just on these 4 trades. I'm ecstatic! I get inundated with daily solicitations for options systems I've sampled, tested and evaluated some of these. YOURS, is the real deal. I am extremely grateful to have found you and look forward to a long and prosperous subscription. Thank you. ”

“WIN” LESSON THREE:**“How the Money Is Made –
Your Weekly Paycheck Explained...”**

3

Weekly paychecks are the goal. Consistent, “count on it” money that you can save, spend or re-deploy and leverage to make next week’s paycheck even bigger. It’s up to you what you do with the money. The minute it hits your account — it is yours to spend.

Let me show you a couple of examples — just to explain how your paycheck is generated:

On May 14th of this year, you could have followed right along with me and bought a call option on FAS stock and a put option for \$1.62 total. Just 72 hours later, you could have closed your positions for \$2.73 and \$0.04 — **that’s a 71% return on your money!** And that’s exactly what me and dozens of my students did!

Then, one week later you could’ve bought a different call option on XME for just \$0.25 each — and then turned-around and sold it just four days later for \$0.50! **That’s DOUBLE your money in a mere four**

days! Again . . . that's exactly what me and dozens of my students did.

And you'll be able to follow along too once you get your hands on my "Weekly Income Now" training. These kinds of results happen quite a bit. In fact, take a look at my recent "track record" to see what's possible with this:

Here Are My Results from ONE Week in 2014

Security	Entry Price	Exit Price	Cost Per	Cash Received	ROI
Amazon	\$0.45	\$3.10	\$45	\$310	589%
BAIDU	\$0.04	\$0.20	\$4	\$20	400%
BP	\$0.11	\$0.35	\$11	\$35	218%
Caterpillar	\$0.09	\$1.23	\$9	\$123	1267%
Cisco Systems	\$0.05	\$0.16	\$5	\$16	220%
Brazil Index ETF	\$0.15	\$0.37	\$15	\$57	147%
Gold Miners ETF	\$0.08	\$0.53	\$8	\$53	563%
Gold Shares ETF	\$0.14	\$0.31	\$14	\$31	121%
Google	\$0.20	\$2.35	\$20	\$235	1075%
Russell 2000 ETF	\$0.04	\$0.14	\$4	\$14	250%
Las Vegas Sands	\$0.04	\$0.46	\$4	\$46	1050%
Microsoft	\$0.03	\$0.13	\$3	\$13	333%
Netflix	\$1.92	\$5.23	\$192	\$523	172%
Priceline	\$0.50	\$1.50	\$50	\$160	220%
Blackberry	\$0.15	\$0.80	\$15	\$80	433%
Schlumberger	\$0.51	\$2.18	\$51	\$218	327%
Silver Trust ETF	\$0.05	\$0.12	\$5	\$12	140%
S&P 500 ETF	\$0.05	\$0.36	\$5	\$36	620%

Just imagine if all you could do was ONE transaction like the "Gold Shares ETF" per week. It's the worst ROI on this chart . . . and it STILL

returned 121%. If you could do that once a week on a \$10,000 investment you'd be cash-flowing \$12,000 per week.

Now multiply that by all the other transactions on the list . . . and you can see how this could dramatically impact your life in a GREAT way — forever! And don't forget . . . this is just ONE WEEK. You could do this 52 weeks per year.

These Kinds of Profits are a WEEKLY Occurrence Once You Know Where to Look – and What to Look For

The potential is there — but you need to move on this while it's still possible to do in America. That's honestly my only fear . . .

Based On the Evidence . . .
the Window of Opportunity in America
is About to Slam Shut.

**You Need to Get Rich NOW While the Getting'
is Good – or Forget About it . . .**

“Weekly Income Now” Makes It Possible NOW!

All you need to do is learn how to follow the rich as they get richer. Watch for their waves — and hop in and ride their coat tails using the techniques I show you in “WIN”!

Now that you understand how the money is made — let me tell you about Richard. He's one of my students. Here's how simple it is to make money:

He's a Retired Dentist Who's Busy Making More Money Now with "Weekly Income Now" Each Week Than He Ever Did In His Practice!

Richard W. is a student of mine — he's from Los Angeles, California. He had retired from dentistry — but just wasn't living the kind of lifestyle he thought he would be while in retirement.

But that all changed one day when, despite his lack of positive results with other trading opportunities, he learned all about my "WIN" system. It wasn't long before he was lining his pockets with plenty of retirement money! In fact, he was taking home more each week than he ever did in his practice.

Here's what he says about "WIN":

“ Chris uses weekly options to set up trades that are risk-worthy and that put the odds in your favor from the start. If I can make **\$3,000 to \$4,000 a week**, I'm happy. And I'm having fun. In fact, I enjoy this so much that when the weekend comes – sometimes I miss it. ”

– Richard W.

What's really exciting to me about Richard's success though, is that it doesn't STOP with just him. He goes on to say:

“ Several friends I've introduced to WIN are really doing well. So it's given us something fun to talk about. It really has been great. ”

Isn't that something else?
And like Richard . . .

Hundreds of My Other Students Have Generated **Consistent, Hefty Weekly Income** For Over 4 Straight Years! And It All Happens Like Clockwork . . . Every Week

It's so simple . . .

“ I'm Earning Between \$3,500 and \$5,000 Every Day . . .

I trade for about a half-hour in the morning and a half-hour in the evening . . . mostly because I can't resist taking a second look. Once a day is really all it takes. And I average \$3,500 a day!”

Within five months I am living the ultimate dream – knowing I'll never need to work another day in my life.

Having burned through accounts in the past, I have no stomach for losing. And that's what makes Chris's system so fantastic. You end up having zero money at risk . . . There's an excellent set of rules . . . It's totally mechanical . . . And you can start small and build.

In fact, it's so plug-and-play easy, my 16-year-old son is now trading it on paper. And I opened a live account for my daughter, who's a college sophomore. What I told her is, how'd you like to walk out of college with a good sum of money sitting there that you've been able to make and still do your studies?

It's like farming. Every day you're harvesting. And every day you're also planting for the next harvest. So, initially you start out and you're making \$300-\$400 a day . . . then \$500 . . . and then all of a sudden you start making \$5,000 a day.

Right now, I'm earning between \$3,500 and \$5,000 every day . . . But I think my biggest day was around \$11,500. ”

– *Leon B., Soix Falls, SD*

- “ Dear Chris, I have had a good day and based on your recommendations in the weekly letter. I bought the straddles and calls you suggested and made over \$1900.00 on a less than a \$1200.00 investment. Great Job

and call on fed.

Share this with whom ever, I am sold on your strategies, still learning, keep up good work!! Little money little risk, potential great returns. Incidentally, I did this in about 5 Hours!! ”

– John Burnett

Like these students — you could do it over and over and over again. The profit potential is unlimited. And . . .

Due to the Size of the Stock Market, There is *Unlimited* Income Potential

So there’s an unlimited and constantly growing number of opportunities.

Recession Proof... Depression Proof... Goof Proof...

That’s why this business is recession proof... depression proof... goof proof... It’s perfect in any economy. This isn’t some fad or here-today-gone-tomorrow trend.

It’s an honest, rock-solid, and 100% decent way to make money.

It has worked for me and countless others for years. In fact, **nothing makes me happier than seeing the same faces write in or call to tell how they have continued to make money, year after year.**

I literally started out with nothing... yet I ended up making so much money, I decided to devote my life to helping others get wealthy — before the chance to become wealthy vanishes completely.

Besides, making weekly paychecks with “WIN” is fun — why would I want to “retire”?! But . . .

I Want YOU to Make So Much That You Can Retire Whenever You Want....

However, this business is so exciting you’ll probably want to keep doing it forever. It gives you such complete freedom, you’ll *FEEL* like you’re retired, even when you’re “working”! I love this so much, I could be involved in it for the rest of my life.

I really thought I was going to retire.

But after teaching just a handful of students how to make weekly income with my “WIN” Income system — I discovered something amazing . . .

The Joy of Teaching Far Exceeded Anything Else I’d Ever Experienced!

Making money using the “WIN” system myself was great. And it still is. (*Remember . . . I don’t just teach this, I also DO it!*) But helping others make money has turned out to be even better.

I’ve now taught over 900 students — all excited about the incredible, weekly money-making potential.

They come from all walks of life... teachers, waiters, sales executives, store clerks, laborers, business people, homemakers — all tired of living paycheck-to-

paycheck, tired of being dependent on jobs that could be wiped-out by some bad news on the economy or a short-sighted supervisor.

The “WIN Income” system has become their ticket to freedom.

But it only happened because I took the time to sit down, take *everything* I knew about the “WIN” system, and create a home study course that folks could take home and use to achieve financial wealth. It took me a while to create and perfect it. The real breakthrough came . . .

**When Weekly Options Came Along!
I Finally Had a Simple, Practical Investment
Vehicle That *ANYONE* Could Use to
Follow My Training With!**

And that’s exactly how the “WIN Income” system came to be.

And I promise — **you get absolutely everything you need to get going from day one — and to keep going the rest of your life!** Use as much or as little as you need. Start slowly and learn as you go. Plus, as you’ll see in just a minute, you’ll also have the personal support of my entire staff to help you as you learn!

Take a look at all you get when you become a member of

“Weekly Income Now”:

The Complete “Weekly Income Now” Training Gives You All the Tools & Support You Need for Success:

Tool #1: First . . . you’ll get your hands on the meat-n-taters of the “*WIN Income*” system — my “WIN” DVD’s and Manual.

Everything you need to know to start making money the same day you get your Course in the mail. Even if you know *NOTHING* about the stock market, options, or financial things in general . . . this manual will get you going in just a matter of hours.

- ✓ **Learn the in’s-n-out’s of how weekly options work . . . only the stuff you really need to know — and NONE of the stuff that makes learning options confusing or complicated.**
- ✓ **Get step-by-step instructions for placing trades online — or with your broker.**
- ✓ **You get to pick the best weekly options for your particular situation — whether you have \$300 or \$300,000. I’ll show you how to find the weekly options that’ll give you the greatest profit potential with the lowest risk.**
- ✓ **Discover how to use weekly options to limit your risk — and how to use my WIN system to add extra layers of protection to protect your downside while giving you potentially unlimited upside!**

- ✓ **How I leverage earnings announcements and other events** that make weekly options values skyrocket — and how you can do it too!

It's all presented in an easy-to-follow format both in-print, and in the DVDs . . . this makes it so you can learn what you need to know to get started quick. In the past, this training has sold for \$1500 . . . but you get it all included as part of your WIN membership.

Tool #2: Get my members-only “Weekly Income Now” newsletter which includes my exclusive, personal weekly trading recommendations!

Imagine that . . . each newsletter will reveal to you what options set-ups I'm going to be taking that week! You can simply follow-along with what I'm doing . . . or choose to take your own position in the market. It's up to you.

I'll go over each trade recommendation, tell you why I love it, and what's going on in the market that makes me love it. Sure, you can trade it right alongside me and make money (*and why wouldn't you!?*). **But please understand . . . the REAL reason I'm giving you my trades is so that you can learn from me how to do it yourself!**

So it's up to you if you want to pull the trigger or not.

To get crystal clear, cutting-edge advice from me,

professional traders pay up to \$1000 a year for this weekly newsletter — and it more than pays for itself! But you won't pay a dime for it . . . because it's included in your WIN membership.

Now let me tell you — WIN members absolutely love this newsletter . . . and they are chomping at the bit each week — waiting for it to come. But it's actually better than that . . . check this out:

For a Limited Time – If You're One of
the First 200 People to Join Me –
You'll Get My Most Powerful Tool for
Generating Weekly Paychecks:

Tool #3: ***“Weekly Income Now”*** **Email Alert Service**

This is where your “WIN” membership really comes alive.

You see, for about 3 years now, I've had a small, private, close-knit group of people who invest \$197 per month to subscribe to what I call my “WIN Alert Service” — where these subscribers get to see what trades I'm making in my own, personal accounts.

They gladly pay over \$2300 per year
(\$197 x 12) because **these are my real trades**.
And I've decided to open this small group up to 200

more subscribers.

Here's what happens: every week I'll let you know which options I'm getting into, and which ones I'm getting out of . . . or if I'm sitting on the sidelines — waiting for the market to shape-up.

And each day, I take detailed notes on every move I plan to make in the market . . . then I type it up, and email it out to you within minutes of me making my trade decisions.

Again . . . these are real trades that I take in my own, personal account.

One thing's for sure — my “WIN Alert Service” will make everything you learn from the total “WIN Income” system COME ALIVE! You won't be wondering or second-guessing on which options you should be considering . . . that's for sure!

But please understand — **because I'm revealing my ACTUAL TRADES — I am only allowing 200 more subscribers to get in.** Based on my estimates that's about all the students I can take care of.

I'm extremely picky about who can subscribe.

Why?

Well, I decided quite some time ago that **I only want subscribers who are sharp, level-headed, and “grown up” enough to understand there**

will be some losers, but are full of confidence that in the long run they'll come out miles ahead from where they started.

People who are committed to really understanding the WIN strategies I'm using and the approach I use to trade. And by ordering my entire "WIN Income" system and going through all the material — you will "qualify" to get my trades.

Bottom line is this: with my "WIN Alerts" hitting your email "in" box — now you won't even have to lift a finger to dig-around and find your first "WIN" opportunities. **I'll give them to you on a silver platter.** All you do is read my "WIN Email Alerts" and pull the trigger!

Please don't overlook just how valuable getting

access to my "WIN Email Alert Service" is. Understand, there's a real science behind the way I uncover the weekly positions that I choose. And it's something I'll teach you in the training . . . it has to do with finding the options on a stock that offer you the greatest profit potential — then buying and selling those options at the very best time.

Doing this takes a bit of watching and waiting — and knowing what to look for with a well-trained eye. You'll

get there — trust me. But like I’ve said many times in this report — I believe NOW is the time to get as rich as you can.

And getting access to my “**WIN Email Alert Service**” **short-cuts the road to your success.**

Remember . . . now’s the time to ride the coat tails of the rich getting richer . . . you need to strike now while the iron’s hot — *and make as much money as possible while you can.*

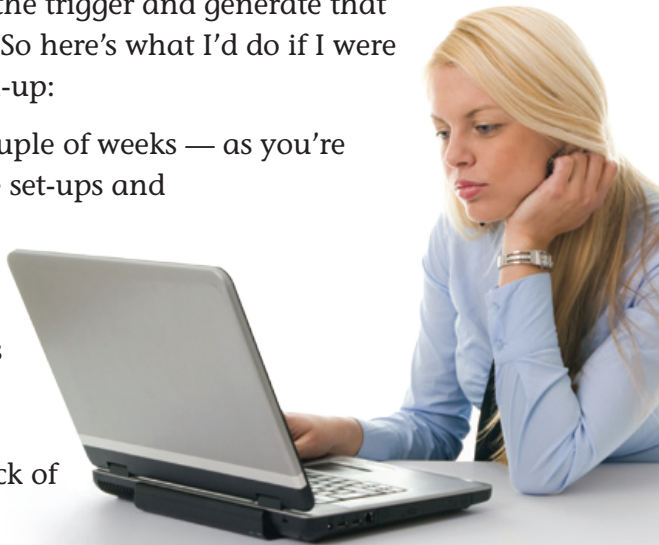

That’s exactly why I created the “**WIN Email Alert Service**”. It simplifies everything for you . . . the alerts will not only be “learning opportunities” for you, they’ll act as a money-making “short-cut” for you, AND they’ll help you build your confidence.

That actually brings-up a good point:

It’s going to take *BELIEF* in the “WIN” system for you to be able to pull the trigger and generate that weekly paycheck. So here’s what I’d do if I were you once you sign-up:

For the first couple of weeks — as you’re learning the trade set-ups and studying the WIN training — just sit-back and WATCH the trades that I give you in the “WIN Alert Service”. Keep track of

what happens on paper

. . . (some people call this “paper trading or “practice trading”). I want you to see how these trades unfold and make money right before your eyes.

This will build-up your confidence so that when it comes time for you to pull the trigger on your own account — you won’t have any trouble doing it.

Don’t overlook this!

Your confidence and belief in the WIN system is critically important to your success! And remember . . . **I DO want you to succeed with this!**

(I’m dead serious about limiting the number of members who get access to my WIN Email Alert Service. I’ve actually asked my staff to keep careful track of the first 200 people to reply from this offer. Those people will be the ONLY lucky people who gain access to this incredible service. Normally, a one-year pass to my WIN Alert Service is \$1997 by itself — and professional investors consider that a bargain!

Please understand — most “trading alert” services cost upwards of \$5000 per year WITHOUT any training or support. I’ve got to keep numbers limited to a point where I know my support staff can take care of the people who DO make it in.)

Which brings me to my last tool for you . . . something I think will ensure your success:

Tool #4: Unlimited WIN Course Counselor Email Support For As Long As You’re a Member

I insist on including this in your enrollment package —

because I honestly wouldn't be where I am today were it not for the help of my coaches and mentors. I want YOU to have the same kind of personal guidance — especially while you're getting started.

That's why I've hand-picked a sharp-shooting team of “*Weekly Income Now*” Course Counselors to help you! **You have their unlimited email support for the first 6-months of your enrollment in “WIN Income” system.**

I'm not talking about out-of-the-country, \$3.00-an-hour customer service people who don't know a thing about “WIN”.

No . . . I'm talking about friendly, caring professionals — live human beings you can email your questions to any time day or night and expect to get an intelligent, informed response from. **These people are all “WIN” trained and know the answer to your questions.**

Please understand, though . . . they are here to support your education only — they cannot (*and will not*) offer investment advice. Nor should you expect them to. But if you have a question about course material — they will have answers for you.

You get the support you need to learn to

be successful — for as long as you’re a paying member in good standing.

They’ll be there for you. I can’t really even put a price on how much this support will be worth to you. Just stop and think about how valuable this support team really is . . . financial advisors charge HUNDREDS and even THOUSANDS of dollars for this type of business consulting. But you get it FREE as part of your WIN training.

And you can email as often as you like for six full months. (*By then, you won’t need any help!*)

The WIN training is so easy and crystal clear, most folks can do it totally on their own. In fact, most of them never need to email for support at all. But my Course Counselors are still happy to hear from you — even if you just drop an email to say hello and let them know how well you’re doing! So chances are — you probably won’t even need help — but this support is available to you just in case you do.

Are you starting to see how this is different? Are you starting to see just how serious I am about seeing you succeed? Are you now realizing just how much I care about you pulling this off?

It’s a total money-making opportunity with all the tools and support you need to make it happen. The “WIN Income” system gives you everything you need to succeed.

3 Reasons Why This Business Is the Answer You're Looking For

- #1. I do it myself!** I've been making money with weekly options from pretty much the first day they were available to trade — just over 4 years ago. (*And I've traded options since I was a teenager!*)
- #2. I've shown hundreds of people from all walks of life how to do it.** Smart people. Not-so-smart people. Rich people. Broke people. Doctors, clerks, and even homemakers! Anyone can do it if they'll just put in the effort.
- #3. I'll let you prove it to yourself with a 6-month guarantee that can't be beat!** I'll take you by the hand and show you, step-by-step, everything you need to know in order to take full advantage of the “WIN Income” system. You'll get more help and support than you've ever had before — in anything you've ever done!

I'm dedicated to you and your success. My “WIN Income” system has been one of the best performing money making systems in the world. And it's so easy . . .

Think of it.

You get all you need to begin succeeding the very first day you get the training! And don't forget — **you get six full months of email support!... and you get six full months of my “WIN Email Alert Service”**. PLUS . . . the trade performance is guaranteed — or you get your money back . . .

Your “100% or MORE” Satisfaction Guaranteed – or You Get Your Money Back!

The trades posted for my Weekly Income Now Trading System must generate at least 100% or MORE in pure profits across all trades (*including winners and losers*) — within 6 full months of your purchase date — or I will refund every penny you paid for the *Weekly Income Now Trading System*.

No questions asked, no fine print. This service must generate that level of performance within 6 months, or you can request and receive an immediate refund.

You have the potential to make as much money as anyone else, and I’m going to give you the tools you need to make it happen. My “Weekly Income Now” system is going to generate at least 100% in pure profits — or I’m going to give you your money back.

I want you to see for yourself that this is even better than you imagined . . . and that’s why I’m willing to give you such a generous guarantee. If my performance doesn’t generate 100% or MORE in pure profits — we’ll part friends, and you’ll get a full refund of the purchase price.

That’s my personal promise to you!

How can I offer such a generous guarantee?

**OVER
90%
WINNING
TRADES**

Well . . . look at it from my perspective: **last year my “WIN Alert Service” had over 90% winning trades.** (Obviously, I can’t promise that every trade will be a winner in the future — or that my 90% winning streak will even continue. There will always be losses — it’s just part of the business.)

But what I will say is that in all the years I’ve offered my “Alerts” — **I’ve never failed to make money.** So because I have a long-running track record . . . I’m confident my “WIN Alert Service” will generate 100% or MORE in pure profits in the next 6 months.

I don’t know about you — but . . .

I’ve Never Seen a Guarantee So Generous And So In Your Favor

I offer this guarantee because I’m serious about wanting to see you have success. I want to change your life. Isn’t it time to step up and claim the success you’ve always wanted . . . the success you deserve? Here’s how to get profiting with “*Weekly Income Now*” right away:

You get everything you need when you enroll to start making money the very first day you get the kit —

- ✓ You get the “WIN” Training DVD’s and Training Manual –
- ✓ You get the members-only “*Weekly Income Now*” weekly newsletter –
- ✓ Plus you get the e-mail support of my entire staff . . .

- ✓ And if you're one of the first 200 new students to sign-up, you'll get a 6-month subscription to my *"Weekly Income Now"* Email Alert Service . . .

All in all, you get over \$3,300 worth of valuable training, support, and "Alerts" to get you up and making money as soon as possible!

Get Started for Less Than 1% of the Income You Can Potentially Make

Your investment to become a part of my "Weekly Income Now" family is a pittance compared to the potential weekly income you can generate. In fact, most serious students are able to more than "pay for" their membership within their first three months. I'm confident you can do that, too.

It's just \$997 for 6-months . . . or \$1,997 for 18 months.

And I'm sorry . . . there are no discounts, "scholarships" or exceptions.

I've set the price just high enough to ward-off any tire-kickers . . . and just low enough so that anyone serious about building wealth and generating weekly income could handle it. Besides that . . . I have students who are essentially more than paying for their "Weekly Income Now" program within DAYS of starting.

Here's an email I got about 2-weeks ago from Brian. He just barely got the training . . . and his \$1,200 TSLA options became \$14,600 in one day..

“ **\$1,200 to \$14,600 In One Day** ”

“ Hey Chris, Not to get greedy, I closed out my 20 TSLA 155 Calls, bought at .60 for 7.30. Couldn't bring myself to hold them overnight. I did pick up another 10 TSLA Calls with the house's money. Specifically 10 170 Calls for 1.17. What a great day! ”

Take care, Brian

Obviously I can't promise this will happen for you — but it happens a lot more frequently than you'd think.

Stop and think about it . . .

It almost sounds ridiculous — the notion that you can change your life with a simple, paltry investment of just \$997 . . . it seems crazy — but it's true. I've seen it happen over and over and over again . . .

You Really Could Take Your Entire Financial Picture to the Sunny Side of the Street *Forever* with This

. . . and THAT just blows my mind. I wish something like this was available when I got started . . . it would've saved me YEARS of frustration.

But please remember . . . I am dead-as-a-doornail serious about limiting the number of members who get access to my WIN Email Alert Service. My staff has been instructed to keep careful track of the first 200 people to reply from this offer. Again . . . a one-year pass to my WIN Alert Service is normally \$1997 by itself. So if you make it “in” the top 200 — consider yourself lucky.

So let me ask you . . . will you make “the cut”?

Are you ready to feel the excitement of *WINNING*? Then here's what I want you to do.

Accept my risk-free invitation.

**Or fax the enclosed “Enrollment Form”

**Or use the enclosed “Enrollment Form” to

When you get the “WIN” training in your hands, start by watching the DVD. It's called, “*Weekly Income Now*”.

Then dive into the manual. You'll quickly discover the powerful secrets and guidance that have taken me over a decade to put together. This is information you can use and potentially profit from for the rest of your life.

Beyond that, I want you to make sure you email my Course Counselors as often as you like for support. This personal service is yours **FREE** during the entire first six months of your enrollment. These experts are here for the sole purpose of helping you succeed.

This training is so easy and self-explanatory, you probably won't need to email. But I still hope to hear from you — even if it's just to tell us how great you're doing. This IS different.

Give it a try.

Remember . . . You Risk **Nothing** to Sign Up.

Just try it out — and see how it FEELS to actually DO something this exciting. Find out what it's like to ride the coattails of the rich — and profit at nearly every turn. Find out that this is everything my students say it is. Experience the fun of “the easiest, most hassle-free way to make a lot

of money without risking much more than one thin dime of your own.”

I make this risk-free offer for one reason only:

I truly believe the **“WIN Income” system** is the best way ANYONE can achieve financial security. I know that if you will just give it a try, you will see for yourself.

The money is yours — but only if you reach out and take it. The truth is, most millionaires are SELF-MADE. Their wealth was not inherited, won, or found at the end of a rainbow. Fortunes are made by people who use their time and energy to create — rather than using it to complain.

I’m telling you . . . if you’ll devote just a few minutes a day to the training, you will truly have the potential to be as wealthy as you desire. That’s my promise . . . and my guarantee.

So let me ask you — sincerely — **how wealthy DO you want to be?** Imagine what you’ll do with your money. What will you buy? How will you spend all that wonderful free time?

I really encourage and challenge you to think about it — and feel the excitement as if it’s already yours. Doing this sets the wheels in motion for huge results to come your way. Just know that all you’re thinking about (and more) can be on its way . . . because you are taking real steps to

achieve your goals by getting going with my “WIN Income” system.

Don't let all the “bad” economic news stop you . . . instead, use it to FUEL YOUR SUCCESS by riding on the coat tails of the rich, as they get richer.

This is a way you can achieve true financial independence . . . working at home just minutes a day, with next to no financial risk . . . no matter what the economy does.

Period. There simply isn't anything better.

~~RISK~~

It's the perfect way that anyone with average intelligence can go out and make more money than they've ever made in their life. The “WIN Income” system really can put an end to your financial frustrations, and give you the financial boost you need — right away! It's a real-life, nuts-and-bolts, down-to-earth, step-by-step system for making serious money . . . time and time again.

My “WIN Income” system has changed the lives of

countless of my course members . . . now let it change yours.

As I've said . . . many of my students make money within DAYS of getting this information in their hands. Just think about that . . . *you could be just DAYS away from a total transformation of your lifestyle!*

Personally, I don't know why you'd want to put this off — or why you'd want to continue to put yourself through any more financial frustration. Why wait any longer?

Consider this: \$997 is a painless drop in the bucket compared to the amount of money you're going to miss-out on if you pass up this opportunity . . . looking at it this way — you really can't afford not to invest in this program.

So why not invest in your ability to take control of your financial destiny . . . increase your lifestyle, and make more money?

Look, and I'm just being honest here . . . you honestly **DO** have the

potential to make as much money as you want. It's simply a matter of choice. You can choose peace of mind and financial and personal freedom starting right now!

You could potentially be receiving "pay checks" every Friday WITHIN DAYS of getting started.

Call 1-888-233-1431 Now.

I will rush *"WIN Income"* system to your door.

I guarantee it will be the best personal choice you've ever made . . . the most fun you've had making money . . .

and so easy, you'll be able to do it in your spare time — yet possibly make enough to surpass your full time income.

Over and over again.

I look forward to helping you achieve your financial goals. If you have any questions, please feel free to phone. I welcome your calls.

Warmly,

Chris Verhaegh

P.S. There's no feeling in the world like waking up every morning, excited about the day ahead . . . like having “extra” money left over after paying your bills . . . like working on your own terms, when you want, and where you want — doing something you love.

Loving life, and having the lifestyle you want (*and deserve*) is the most rewarding part of “WIN Income” system. Being able to make money from home on your own time without a lot of hard work, without a boss breathing down your neck, and with

little to no financial risk — all the while, living life on your own terms . . . that's really what

the “WIN Income” system is all about.

Don’t you think you owe it to yourself to at least give this a try?

I do. And if there’s one thing I know about you, it’s this — you deserve success. You’ve worked hard . . . so now’s the time to reach for it. It’s waiting for you.

P.P.S. You know . . . I may be totally wrong about the economy. After all, I’m no big-shot financial genius. But so what if I AM wrong? You’ll still be learning the best damn money-making method to ever come along! So big deal if I’m wrong! **That’s just good news for both of us!...**

You’ll still get the benefit of generating financial and personal freedom you’ve always longed for — plus you’ll get to do it in the land of opportunity . . . home of the free and the brave!

Want to know the truth?... I sincerely hope the so-called experts ARE wrong about the economy. Cause I want my children’s

children to be able to use WIN to create personal and financial freedom for a long, long, long time.

And as I read back over it, I realize I started this report with a pretty “doom-and-gloom” message. I hope you don’t think I’m trying to scare you, me, or anyone else. Cause I’m really not.

Obviously, I don’t have an economic “crystal ball” that can see what’s coming in the future. So really . . . what do I know about the economic future?

I do, however, have a good amount of “common sense” that’s served me well throughout my life. And I just look at the facts. And the facts I see point to a pretty bleak outcome at some point soon.

Since I have an answer . . . an answer that’s worked for me and hundreds of other people . . . I feel it’s almost my “duty” to do what I can to throw-out as many life preservers as I can before people start drowning. That’s all I’m trying to do . . . just lend a neighbor a helping hand.

And regardless of where the economy goes — all of what I said is still true . . . the rich are getting richer. And my “*Weekly Income Now*” system gives you a sure-fire way to ride their coat tails and generate your OWN riches. So why not get started now?
