Jim Prince

Dear Friend Looking for Personal & Financial Freedom,

This is your risk-free chance to try out the most remarkable money-making opportunity on the planet. It gives you the chance to make thousands of dollars FAST. And you can do it over and over again, to achieve financial independence for the rest of your life.

It has nothing to do with a new job, a risky investment, or the stress of starting your own business. It's **just 4 simple steps** anyone can learn to do at home. To learn it you don't need money, a college degree, or anything more than the desire to start enjoying life. All you risk is just a little bit of your time to make sure it "fits" you and your lifestyle. And if you DO decide it's for you — it can require just a few minutes each day to keep it up and running with a moderate investment.

Hi.

My name is Jim Prince.

And for just over 30 years now, I've been showing people just like you how to make money from home on your own time without a lot of hard work and — as long as you're disciplined — with known and controlled financial risk. And based on the results my students have consistently gotten . . .

My Proven, "Greatest Business on Earth™" Truly is the Easiest, Most Hassle-Free Way to Learn How to Make Yourself a Lot of Money Without Betting the Farm

In case you can't tell by the name I've given my program — *I'm pretty darn proud of the entire system.* And I'm especially proud of the results many students get when they choose to take the simple steps to put the information I provide to WORK.

Now, of course there are never any guarantees in any financial program — nor in life for that matter. If anyone promises that there are, you should run the other way!

And everyone is different. So earning potential is entirely dependent on the amount of time and effort you devote to my program, as well as your finances and skills starting out.

Plus, this is in no way a "get rich quick scheme." It's more of a slow and steady build up that can transform your financial situation.

That said, what I am going to tell you about here is the best, most complete program I know of to help regular people turn over a new leaf in their lives and begin fulfilling their dreams for

themselves and those they love.

Not only is the money-making approach ideal, but given the amazing level of support we provide to help you get started and then keep going, we just have to call it “The Greatest Business on Earth™”!

Yes . . . calling it “The Greatest Business on Earth™” is a pretty brazen, audacious, unashamed, and proud thing to do — but it’s honestly how I feel about it.

For several good reasons:

- ✓ **It’s Fast.** You could get your first “pay day” in just days
- ✓ **You Need Absolutely No Money to Learn This.** If you have an Internet connection and a computer — you’re good to go.
- ✓ **It’s Simple.** Just follow 4 easy steps . . . there’s nothing to think about. You could learn how to make thousands of dollars, month after month — even if you’ve never made money on your own before.
- ✓ **It’s Fun.** No boring busywork. No employees, inventory, or complicated paperwork to hassle with. Just fun!
- ✓ **It Gives You Freedom** — of being your own boss — but it’s EASY and you can do it from home in addition to (or instead of) what you do now to earn a living.

And it has nothing to do with network marketing, “nothing down” real estate, franchises, import/export, risky stocks, or mutual funds. And if you do it right — i.e. the way I teach you — it CAN be safer, more effortless, and potentially more profitable than any of those.

PLUS . . . it only takes about 15 to 30 minutes a day to do — depending on how “hard” you want to work.

This is your risk-free chance to try out the most remarkable money-making opportunity on the planet . . .

It gives you the chance to make thousands of dollars. And you can do it over and over again, to achieve financial independence for the rest of your life.

And it has nothing to do with a new job or the stress of starting your own business. It’s **just 4 simple steps** anyone can learn to do at home.

You don’t need money to learn this, a college degree, or anything more than the desire to start enjoying life! And with some of the methods I will teach you, your financial risk is always known IN ADVANCE . . . before you begin.

Now . . . before I go on . . . I want you to know that I wasn’t born with a silver spoon in my mouth. In fact, I started out with nothing — no college degree, no family money — yet I’ve been

blessed to have stumbled into a way to think about and make money *that changed my life*.

And I learned that I didn't need a big bankroll to get started — once I unlocked the secrets of “The Greatest Business on Earth™.” I'm excited to tell you that in spite of what most people believe —

You Don't Need a Lot of Money to Make Money!

You see, just over 30 years ago I discovered a way to make huge amounts of money — without a job, a boss, employees, customers, or any of the limits or pressures or hassles of other income methods.

And I'm talking about the possibility to make A LOT of money. In a REAL business that's been around for DECADES — actually, hundreds of years!

This is **NOT** one of those “hot” new-fangled Internet schemes or multi-level deals that will be history in a year or two. This is **NOT** an at-home job or franchise. It does not involve sales, real estate, the stock market, Internet marketing, or anything you have probably heard of or even tried in the past.

There are **NO** products or services for you to sell or provide. No bosses, customers, clients, schedules, timesheets, meetings, or pressure to deal with. And **NO LIMITS** on how much money you could make.

This is truly “The Greatest Business on Earth™.”

What's more, there are none of the hassles of buying or selling any property. No banks to deal with. No fixer-uppers to pour all your money into to get in shape. No “money pits!” There are no tenants, no midnight plumbing emergencies — none of these problems at all.

This is like having your own, home-based business — but without the headache of inventory, customers, employees, and deadlines. It's much easier than any of that.

And There's **NO FINANCIAL RISK** to Get Started Learning This Business

When I first heard about it, it seemed too good to be true. And — it may seem like that to you, too. That's why I've gone to the expense of putting together this detailed report to explain to you exactly what this is — and how it could potentially make you more money than you might make working years at a regular job.

I'm totally serious . . . and . . .

*I'm going to PROVE to you, right here in the following pages —
as best I can — why I believe this is the BEST way to make money on earth.*

How?

Well, first off, you'll meet some of my students who were so thrilled with "The Greatest Business on Earth™" that they wrote or called to tell me how grateful they are to have discovered this program.

These folks weren't paid in any way for their stories. They openly share their experiences to show you how "The Greatest Business on Earth™" has changed their lives — starting with their very first deal!

These are all people who had your very same dreams of financial and personal freedom . . . they're real people who found out there IS a better way to earn a living. These folks all followed the same simple system I'm teaching you now — and they are now enjoying life on their own terms.

But more importantly — as far as proving why I believe this is the BEST way to make money on earth — you need to know something about me:

I don't just teach this — I follow the exact system I give you.

In fact, I've perfected this system over the past 30 years. This is something I still DO each and every day — because I love this business!

(But don't worry . . . that doesn't make me a competitor — not in this business. You'll see why in just a minute.)

I've made it my life's work to prove that it's possible for average people to make thousands of dollars without a lot of hard work and with limited financial risk. And you won't have to go into debt, or hit up your family and friends for ANYTHING.

You have the potential to make as much money as anyone else, and I'm going to give you the tools you need to make that happen. "The Greatest Business on Earth™" is going to work for you or you will be out NOTHING but a little bit of your time.

I want you to see for yourself that this is better than anything you've imagined . . . and if it's not for you — no problem! We'll part friends, and it will have cost you nothing more than a small amount for shipping.

That's my promise to you. And personally . . . I think you'll absolutely love this — in fact, once you really "get the vision," I know you'll love it — because . . .

By Working Just Minutes a Day You Can Make the Same Money as You Do Working ALL Day at a Regular Job

And this will give you the freedom to work when you want. The way you want. *(Sometimes I even work in my pajamas!)*

Take a minute and think about how YOU would like to work — and what you really want

from life. How about having the potential to make all the money you need — for the rest of your life — but without being tied to a 50-hour-per-week job, or having to kiss up to a boss?

And no more worries about job security, possible layoffs, or how to stretch a too-small paycheck . . .

Or how about knowing you can provide for your family — and afford whatever you desire, with no concern about the cost! A new home, a sports car (*or two*), big screen TVs for every room in the house, a dream vacation — every year.

And having the ability to spend what you want and know you always have the potential to make more and more, every single day.

It's a whole new, unlimited way of thinking about money . . . knowing it could truly be yours!

This Gives You An Idea as to Where “The Greatest Business on Earth™” Can Take You.

“The Greatest Business on Earth™” is different from any other money-making method on the market.

There's virtually no limit to how much you can earn. And this is a real business . . . but it's something you can run from your own home. Now, before I tell you more about what it is — let me tell you what it is not:

- ✓ It is **NOT** some MLM, Network Marketing, or Pyramid Scheme where you have to harass your friends and family to give you money.
- ✓ It is **NOT** a get-rich-on-the-Internet program that requires high-tech computer smarts just to get started.
- ✓ It is **NOT** a program where you buy my catalogues or products to stack up in your garage while I get rich.
- ✓ It is **NOT** a high-priced franchise. It does NOT require you to spend a small fortune buying equipment and hiring employees before you ever make a dime.
- ✓ It is **NOT** a service business that requires you to scrub toilets, repair windshields, clean blinds and carpets, or anything else where you only get paid by the hours that you put in.
- ✓ It does **NOT** require any special college degree or expertise
- ✓ It does **NOT** require any up-front investment to get started
- ✓ Better still, there is **NO selling** involved — this is not a system that trains you to become a super-duper-selling machine so you can promote some product that no one wants or needs.

Now . . . with the “what it's NOT” out of the way — let me tell you a bit about what “The Greatest Business on Earth™” IS about . . . even if you've never heard of the concepts behind it

(most people haven't) it can be the key that opens the door to your financial freedom.

All it takes is a little time and a small amount of effort to potentially earn thousands of dollars — even more — with your very first deal.

And what makes this even MORE exciting —

You Can Start Making Money Just ***DAYS*** After Beginning

I'll show you how to do it successfully right from home . . . and you can start learning with NO MONEY whatsoever. Could that be realistic?

You bet it is . . . and the biggest myth you've been sold is that it takes a lot of money to make money — or that you need a college degree to be successful. **The truth is anyone can make a ton of money without a lot of money to start, a college degree, or even talent.**

You certainly don't need an MBA or any college degree. In fact, I was a "world class" terrible student most of my life!

Clear up until I was in my 20s — all I wanted to do was play baseball! As a 10-year old, I spent what must have been HOURS tossing the ball up as high as I could, and then diving to make a "last second" catch to "win the game." I'd even be the PA announcer . . . " . . . and Jim Prince, the skinny kid from Tacoma, Washington makes an incredible catch to win the game!"

I'd get lost in my imagination playing baseball outside in my yard all the time.

My parents used to get mad at me for throwing the ball up on the roof, and then letting it roll down so I could catch it. But it was the best way I could "play catch" with myself!

I loved organizing a neighborhood "whiffle-ball" game . . . basically that's where you'd play a game of baseball with a plastic ball and plastic bat. And since you didn't need gloves or bases, it was a lot easier (and safer) to get other kids to play.

And by my rules . . . you could throw the ball at the other guy — and if you hit him with it, you'd get him "out." It was a TON of fun . . . and to this day . . . I still enjoy a good game of whiffle ball with my kids.

Anyway . . . needless to say . . . I wanted to be a professional baseball player. And consequently, I was pretty committed to it from a young age.

Of course it seemed like just a young boy's dream — I came from a hard-working family and my parents just wanted me to get a good job. *But I stuck with my dream clear up until I was about 20.*

My point is — when I first started doing what I'm doing now

— I knew NOTHING about making money. I was in my early 20s, and until then, all I'd ever wanted was to play professional baseball. I didn't care about anything else.

And I didn't prepare for anything else! In fact, the only reason I even went to college was for the shot at playing baseball professionally. I had a part-time job in a mailroom in the mornings, went to college for baseball practice in the afternoon, and then took all my classes at night.

I ate, slept, breathed, and dreamed baseball. *It was all I ever wanted to do.* So I had nothing to fall back on — there was no “plan B” should my baseball dreams go up in smoke.

Which sadly . . . they did.

Ugh.

I'll never forget it.

Baseball tryouts were coming up soon. I was playing basketball with some friends when one of the other guys accidentally tripped me from behind.

And I fell.

HARD.

Right on my pitching arm.

And the Minute I Stood Up I Knew Something Was Wrong

The pain was unbearable. Sure enough . . . my elbow was severely broken. And it was never the same. Even months after it healed. Even after months of physical therapy. It was never going to be the same.

Well . . . needless to say, I didn't make the team. And frankly, I was so devastated and discouraged — I actually dropped out of college. My dream was shattered . . . and I had ZERO clue as to what I was going to do.

Luckily, I did get a job that would at least keep my rent paid. But since baseball had been my only dream — I just felt like a lost puppy . . . I had absolutely nothing else in mind to do with my life.

And for the next few years, I went from job to job — pretty much just hoping that I'd stumble into something that would “light my fire,” “turn me on,” or “make me feel ALIVE” again. *All with no luck.*

I tried everything you can imagine. I tried multi-level marketing, sold insurance, sold mattresses, worked in a lumber yard . . .

Now, I don't tell you ANY of this to make you feel sorry for me . . .

I just want you to know that I didn't spend years and years to study and learn how to make money in business.

If anything, I was LUCKY to accidentally fall into this.

My point is . . . **I'm living proof that you don't need ANYTHING other than an ability to think differently, the desire to make money, and the willingness to learn, and put that learning to work.**

If you have that, YOU CAN DO THIS.

So after spending what seemed like an eternity trying to "find my place in the world" . . . it must have been time for fate to step in . . .

It Was 1985 — and I Got a Booklet in the Mail, Very Much Like the One You're Reading Right Now . . .

But it was written by a man who was known world-wide as "The Contrarian." He earned his nickname because he was known for his "contrary" ways of thinking about how to make money.

I couldn't put his booklet down.

And I read every word on every single page of it. It was ALL NEW to me. I had never read or heard about *any of the stuff* he was talking about.

It was a way to make money WITHOUT WORKING . . . WITHOUT GOING TO SCHOOL . . . WITHOUT ANYTHING I had ever associated with making a living.

With every page-turn, all I could think was . . . "No way!" or "Wow!" or "Seriously?!" It was really eye-opening. Looking back on it — I realize now what might have made me succeed in this business. And it's going to sound a little strange — but stick with me . . .

You see . . . at that point in my life, I was too young, too naïve, and too inexperienced to even be skeptical. So I read his every word with a VERY open mind. In other words: **I TRUSTED HIM COMPLETELY.**

Besides . . . I had already given up on my dreams — so what did I have to lose, anyway?

Even worse, my goals were lower than a rattlesnake's belly in a wagon rut . . . so, since I had nothing to lose . . . I decided to call the number on the back of the booklet and told them to SIGN ME UP.

Again . . . my "blind faith" is (I believe) part of the real reason why I've had success in this business.

Anyway . . . within a week or so, a box came in the mail. It was filled with all the "how-to" materials he promised . . .

everything I needed to get going in my own money-making business.

And because I didn't know enough to have any self-doubts . . . or to over-think things . . . I actually **DID** what the instructions said to do. I just RAN WITH IT. (Again . . . "blind faith"). **And with no hesitation at all, I just went ahead and dove right into it.**

It was as simple as 1, 2, 3.

There wasn't any "magic" to it. It was like learning anything new. Sure, it was a little challenging at first. But I did just a little every day, maybe 15 minutes worth. After about a month or so of reading and studying, I had the instructions down pat.

Then . . . what happened next — completely blew my mind . . .

Are you ready for this? . . .

I actually made some money!

Can you believe it!?

I followed the instructions . . . and I made money.

Yes . . . ME . . . Mr. "No College Degree," Mr. "No Career Experience," Mr. "No Business Background," Mr. "No Dreams"! . . . yet I actually made some money! And the more I made . . . the more I trusted the process.

And the more I trusted it . . . the more money I made. And before too long, my entire life changed . . . and not just financially!

My confidence was growing as fast as my income.

My friends and family started noticing the changes in me. Friends wanted to know what I was up to. When I told them what I was doing, they asked me to show them how. (That's how I discovered just how much I love teaching and mentoring others.)

Suddenly I was their hero. And for the first time since my baseball dreams went up in smoke, **I had a PURPOSE to my life.**

Of course, as with anything new, there was a learning process. And, admittedly, I was flat-out

lucky at first, and made some pretty good money. And then I got cocky and lost some money.

But I learned some valuable lessons from all of that — like appreciating the risk of loss that goes along with the potential to profit.

That's what made me the level-headed businessman I am today — and more important for you — it gave me the experience to know what my students need to learn, which makes me a better teacher and mentor.

Now please understand . . . I'm not telling you all this to brag. Heck, I don't even like talking about myself. I just want to tell you enough so you'll understand that ANYONE can do this. **I didn't start out with one bit of financial knowledge.**

All it really takes is the desire for something more . . . the willingness to open the door when opportunity knocks . . . and the ability to take a small step outside your comfort zone.

Because that's exactly where you're going to find success. *In ways you can only imagine right now.*

In fact, not long after I got that booklet in the mail . . . my entire life changed in ways I had never even thought possible. I learned how to make money on my own. Heck, I was my own boss! I had more confidence than ever before.

And within a year or two, my wife and I moved from a small apartment to a nice townhouse where we started our family. I woke up every morning *excited to start the day.*

And I went to bed every night with a smile on my face, knowing I was providing for myself and my family in the best possible way.

It was a great feeling.

Then Came a Huge Turning Point

One evening, I was just sitting quietly . . . thinking about life. And it occurred to me just how incredibly blessed I was. And that got me thinking about what had started me down this “path” in the first place.

And I remembered that booklet I had gotten in the mail from “The Contrarian” some years earlier.

And I recalled that it had a section called “letters of appreciation” in it. And I decided to sit down to write my own “letter of appreciation” to him. Mostly because of how wonderful my life was . . . but also because, when I first started this business, I did it with my dad.

My dad and I had an absolute blast learning this together. It was something he and I had in common. *And it allowed me to get close to my dad in a way that had never been possible before in my life.*

Then, when my dad died a few years later, it was just really

nice to know that our last couple of years together were much more fulfilling and rewarding simply because we spent that time together . . . launching our “new adventure” together.

I was able to “get close” to my dad like never before.

I was so grateful to The Contrarian for introducing my dad and me to something that had brought us so close together — that I decided to write him a letter to tell him our story and thank him for all he had done for us.

Now, to be honest, I wasn’t even sure The Contrarian was a real person. But to my surprise . . . about a week after I sent my letter in, my doubts were put to rest when he actually called me to say, “Thank you for writing to me!”

I was pleasantly surprised! And then he invited me to come up to visit him at his office in Oregon. I instantly took him up on his offer.

And man . . . was I nervous at first! At the very least . . . I was giddy. And honestly, I felt like I was going to meet a Rock Star or something!

But a month later, there I was, sitting across the desk from him in his office.

And when we finally started to talk . . . I felt like I was visiting with an old, familiar friend . . . it felt as if I’d known this guy for years.

We hit it off really well . . . right away . . . and we drank gallons of coffee — and he talked my ear off about this incredible money-making business for the next several hours.

It seemed like 15 minutes! . . . the time just flew by. I thanked him again for changing my life — and for inviting me to come up and talk about it.

“Talking is the reason I do this,” he joked. “The more people who do this business, the more people I have to talk to!” he said.

And boy, did he love to talk!

“I’m a wealthy man today,” he told me. “But I sure didn’t start out that way.” He told me how he started with no money, no college degree, and no idea HOW he was going to get rich. He just had a quiet confidence that he would.

“I just needed to find my right place in the world,” he said. And I knew just what he meant. “Before I discovered the secret to making money, people used to call me a dreamer.”

“Some would call me a loser,” he said. “But I didn’t care. I wasn’t going to give up until I figured out how to make a living without giving up my life.”

He knew that success didn’t depend on being smart. He said, “I’ve met plenty of rich people and some of them were anything *BUT smart!*” He figured if

they could do it, he could, too — once he figured out the secret.

And then one day, he did.

He told me the secret to success came down to 4 really simple things. Then he broke it down for me:

- 1) Find a proven, successful system**
- 2) Set a goal**
- 3) Find an experienced coach or mentor to guide you**

He said, “Jim, if you apply these first three steps, you could win at just about anything in life. But if you want to take things to the NEXT LEVEL . . . you need one more thing.”

I was on the edge of my seat.

It wasn’t a big complicated investment formula or business strategy. He told me it was just one single sentence that held the greatest money-making principle of all time.

- 4) “To be a success, you must think differently than others.”**

When The Contrarian said those words, I practically leaped out of my chair — nodding my head in agreement, saying, “That’s exactly what I learned from your money-making program!”

“Oh, you didn’t learn it from me,” he smiled. “I just showed you how to take what you already had and profit from it.” Then he asked me, “Be honest now . . . haven’t you ALWAYS felt different from other people?”

I had to admit I had.

Growing up, it wasn’t a great feeling. But now I knew it was actually one of my greatest strengths. Because it made it easy for me to follow a common sense approach to money-making — rather than the usual “guaranteed to make you broke” crowd mentality.

It’s so simple!

He used this 4-step formula to build wealth . . . now I was using it, too! And YOU can use the formula in ANY area of life! . . . you can use it to lose weight, improve your relationships, excel at a sport — even to learn how to make a lot of money!

It’s all the same!

Once again, this “magic” formula worked.

That visit with The Contrarian was the beginning of a long and fruitful, multi-year

relationship. He became my Mentor, and I felt like his Apprentice.

And when he saw how happy I was teaching my friends what I had learned, he invited me to come work for him and teach his students for him and become their wealth-building mentor.

It was a dream come true.

Thirteen years later, when The Contrarian retired, I stepped into his shoes and eventually took over his role in “The Greatest Business on Earth™.”

I was overjoyed! I wanted to teach, mentor, and do this every minute of every day. I hadn’t had this much fun since I was a kid, playing whiffle ball in my backyard with friends!

This business is fun.

And it’s easy.

And you don’t need any experience at all.

All you need to do is simply go through the training materials in my “Greatest Business on Earth™” Course and follow the steps — step-by-step — and you can succeed.

It really is that simple.

And please understand . . . this isn’t some “here-today, gone-tomorrow” business . . . this business has been around for decades — and that’s important — because it tells you that it’s not going anywhere. In fact . . .

This is a Multi-Billion Dollar Industry . . .

. . . If you can simply follow some simple instructions — you can make money, and you couldn’t possibly run out of opportunities to profit!

This business is here to stay. And although the world’s history of the commodity markets isn’t fully known — we do know that China was trading commodities as long ago as 6,000 years. So it’s been around a while . . . and isn’t going anywhere anytime soon.

And that’s important because, after all . . . the last thing you want to do is jump into some new-fangled business that’s likely to completely disappear in the next 3 or 4 years — as many people do. Why take chances starting a business that won’t even exist in a couple of years?

Or, like what happened to a man you may have read about in

the financial news: he cashed in for a while on the Google AdSense craze that cropped up in the early to mid 2000s. Do you remember that one?

He spent a small fortune building hundreds of successful “directory websites” . . . websites that drove traffic to advertisers. He actually did very well for a while — making up to 6 figures a month at its peak.

But guess what?

Google changed their algorithms on him . . . and literally overnight — 90% of his website properties went DEAD. They suddenly had ZERO traffic . . . which meant, he was making ZERO income.

All simply because Google decided to change how they did business . . . and the next thing you know — his entire income ran dry. His business vanished in the blink of an eye . . . and it was totally out of his control.

But that’ll never happen to you with “The Greatest Business on Earth™.” In fact, “The Greatest Business on Earth™” meets what I call . . .

The 7 Crucial “Must Have” Ingredients for the “Ideal Business”

Ideal Business Ingredient #1: *No Selling or Cold Calling Required*

Let’s face it . . . most people HATE to sell — and most people HATE to “be sold”!

And almost no one likes the idea of having to bug people, or call people “cold” and try and get them to buy something! Think of how uncomfortable it feels just calling your in-laws to sell cookie dough or candy bars for your kid’s “school fundraiser”!

No one likes it!

It’s the LAST thing I want to be doing! With “The Greatest Business on Earth™” you won’t be!

Ideal Business Ingredient #2: *No Inventory*

Do you really want to fill up your garage, your basement, and half your bedroom with a bunch of products that no one really wants to buy? Or worse yet, rent out a retail space and fill your back room with products your “franchise agreement” FORCES you to stock?

Yuck!

There’s none of that with “The Greatest Business on Earth™.”

Ideal Business Ingredient #3: *No Employees*

Just the thought of hiring and firing people sends frightening chills down my spine! Employees can be a pain . . . why not avoid the costs, the hiring and firing nightmares, the

training, workman's comp, payroll taxes . . . and on and on and on?

Ideal Business Ingredient #4: No Customer Service Hassles

There is no hassling with unhappy customers in “The Greatest Business on Earth™” — quite simply because there are NO CUSTOMERS!

Ideal Business Ingredient #5: Low Cost to Get Started

Starting your own business with “The Greatest Business on Earth™” is dirt-cheap . . . especially when you compare it to the idea of starting a franchise or something like that!

Actually, *you can potentially make your money back when you finish your first deal!* There aren't very many businesses where that's even possible — let alone a “given.” Plus, you have no high start-up costs, no royalty payments, no high-rent offices or buildings, and no expensive inventory!

Ideal Business Ingredient #6: No Big Risk to Get Started

With “The Greatest Business on Earth™” you have practically no risk to get started. With “The Greatest Business on Earth™” really all you need is the ability to follow simple directions.

You have the potential to make as much money as anyone else, and I'm going to give you the tools you need to make that happen. “The Greatest Business on Earth™” is going to work for you or you will be out NOTHING but a little bit of your time.

If it's not for you — we'll part friends, and it will have cost you nothing more than a small shipping fee. That's my promise to you! And personally . . . I think you'll absolutely love this — in fact, once you “get the vision,” I know you'll love it.

Ideal Business Ingredient #7: Requires Very Little Time

The last thing you want to do is buy yourself a JOB! And trust me, when you open a big, national franchise (*like one of the big burger or taco joints*) you're basically buying yourself an 80-hour per week job! Just ask anyone who owns one!

“The Greatest Business on Earth™” doesn't take much time to start OR keep running! It's actually something you can do even if you're working 40, 50, 60 hours a week at a job. All you need is just a few minutes a day — that's it.

Trust me . . . you don't want another “full-time job” on top of your current full-time job — and “The Greatest Business on Earth™” takes just minutes a day to do. At first it will take a little MORE time just because there's a learning curve at the beginning.

But once you understand how everything works — running your business will take

little more than a few minutes each day. That's what makes "The Greatest Business on Earth™" such a great opportunity!

all of my physical abilities. In the subsequent months I had to relearn how to eat, walk, talk and everything else one usually does in life.

“But I realized how lucky I am. If I’d been in a normal corporate job, I may have been let go because I was ill for so long. I wouldn’t have been able to earn money during this time and I wouldn’t have been able to focus on healing.

“But because I have used your methods and taken your advice, I was able to maintain my income through trading during this very difficult time. In fact I was able to check my trades while lying in a hospital bed! I feel SO blessed to be in what truly IS the ‘Greatest Business on Earth’.

“If you are serious about being a successful trader I consider a GBE membership a necessity.”

— **Shawn W., Weston, FL**

“I was first introduced to GBE about 10 yrs. ago. With a lot of excitement and enthusiasm I began to study/paper trade and eventually traded with both success and setbacks, but most, if not all of the setbacks were because of my way own of thinking.

“Eventually, due to economics and loss of focus, I put GBE on the sidelines. However, through the last several years, I would occasionally, just look at commodity prices and ponder.

“Well, here we are ‘2015’ and I saw Jim’s offer to just take a look at the New Website, so I pulled the trigger and all I have to say is ‘WOW’ so many new tools! Along with insights to (if not the most important) Capital preservation! I am excited to be back!

“I am now patiently taking my time, to learn all of the new tools GBE has to offer: working to get up to speed, learning and paper trading in that order. Please thank jim and all of the GBE team, for all their continued hard work and support. It is gratefully appreciated!”

— **Steven V., West Hills, CA**

“I love the GBE site. The training videos are great. Travis and the Paper Trading series were very helpful and pointed out several mistakes I made often when I did a little trading years ago. The interactive charts are a bonus too.

“I don’t miss marking the charts with a pencil and a ruler. It seems that each day I discover some new help like the fact that Trade Tracker and the charts update each time I refresh the page.

“I have called a course counsellor a couple of times to point me in the direction of more or specific training resources. All of the Updates and Alerts are great too. Now to reap a harvest from the markets.”

— **Tom W., Meadow Vista, CA**

I’ve got dozens and dozens of comments from wonderful people throughout the years — I could literally fill pages and pages of this booklet with more success stories like these. But the most important thing you need to realize is this:

These People Are Just Like You.

They’re all ordinary people who had a sincere desire to get OUT of the rat-race . . .

. . . people who wanted to have more time to spend traveling . . .

. . . spend more time with loved ones, and just flat-out get more out of life . . .

. . . people who had a sense that “there must be more to life than this . . . ” and they went

out and **TOOK ACTION** to do something about it.

Again — they're all people like you . . . people who wanted to improve their lives — and with my proven system, **you can improve your life just like they have by following my simple method.**

You want more out of life . . . don't you?

You want to live the “good life” . . . right?

Well, my friend . . . I want **YOU** to be able to retire whenever you choose. With enough money to live the way you want.

That's why I created “The Greatest Business on Earth™” home study course — a money-making opportunity that can be your ticket to the life of your dreams.

You'll learn the same formula that has worked for me, my mentor, and countless students doing this just a few hours a week from home.

Now please understand:

This is not information you'll find in the library, or any books that are out there in the mainstream. And you definitely won't find this information in the curriculum of the top universities of the country.

You'll be learning my best secrets on how to be successful in “The Greatest Business on Earth™.”

I want to tell you exactly how this all works. And how this business can potentially earn you enough income to say goodbye to your money worries, once and for all.

And that's why I took the first step and sent this booklet to you at my expense. I hope it will inspire you to do what you need to create a more fulfilling, rewarding life for you and your family.

You see . . . you got this booklet because — if you are who I **THINK** you are — then you're a self-motivated individual who's interested in learning how to earn a substantial income . . . working part-time (*less than a few hours a week*) . . . at home (*or anywhere else you desire*) — even if you're retired.

I believe you're the type of person who would like to have the potential to quickly earn a significant amount of money — in an established profession that requires NO previous experience, NO set hours, and puts NO LIMITS on the money you can make or the amount of

freedom it gives you.

Right?

If that IS you . . . then keep reading . . . because this is perfect for YOU.

My company takes NO cut of your earnings. All the money you make goes straight to you and is ALL YOURS. **All I ask is that you please first read this carefully and respond ONLY if you meet the qualifications explained below.**

If you do . . . I'll provide you with everything you need to get started in your own business FREE — with NO RISK and NO long-term COMMITMENT from you.

This Is a Very Different Kind of Opportunity. So I'm Looking for a Very Different Type of Person

My requirements are a bit unusual. I don't really care about your education, your work history, or even what specialized skills you have.

And I definitely don't care about your age — or even where you live.

And it doesn't matter to me if you've tried to make money on your own before — or heck — even if you don't know a thing about money and business.

What I DO care about is far more important, because — as The Contrarian pointed out — *this one factor alone can be the absolute KEY to your success in this highly profitable profession — and it's this:*

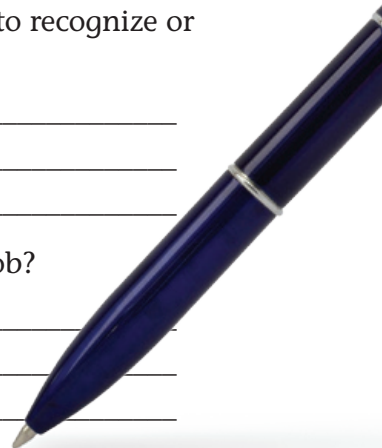

I Care About How You Think

Grab a pen. And please answer these questions — **and be brutally honest with your answers:**

1. Do you often see simple solutions to problems that others can't seem to solve?

2. Do you have talents or abilities that most people just don't seem to be able to recognize or appreciate?

3. Do you like the idea of making money without being restricted to a 9-to-5 job?

4. Would you rather risk having too much time on your hands than be tied down to a desk, machine, or a corporation your entire life?

5. Do you have interests, hobbies, or goals you are eager to pursue now rather than postponing until after “retirement?” Or are you retired now, and want to enjoy it to the fullest while actively pursuing your dreams, fires, and desires?

If you said “YES” to ANY of these 5 questions . . . that’s a good start. The more “YES”’s you have — the more likely this will work out for you. You might just have what it takes to succeed in “The Greatest Business on Earth™.”

So please keep reading if you answered with at least one “YES.”

Next important question: **How much money do you want to be making this time next year?** *(Be honest! But THINK BIG!)*

What comes to mind? Be specific. I want you to seriously come up with an amount that would allow you to LIVE the life of your dreams — without a single bit of financial stress — with NO COMPROMISING!

So how much do you need to be able to:

- ✓ **Drive the kind of car you’ve always wanted to drive?** (What color? Red? Silver? Black?)
- ✓ **Pay off all your debts**, get rid of your “permanent bills” — and cover all your expenses each month? *(And I mean pay off IN FULL, with plenty left over for everything else!)*
- ✓ **Get the dream house you’ve always wanted** — and even furnish it the way you really want!? *(Maybe with an in-home theater . . . popcorn machine and “the works!”? What about some MASSIVE “his-and-her” walk-in closets? Or a professional quality kitchen — made for a chef!? Want one of those “rain showers” where the water seems to come from everywhere? . . . why not!!!?)*
- ✓ Afford the best health care, education, food, entertainment, travel? *(First-class tickets to concerts, sporting events, Italy?)*
- ✓ **Go shopping** for all the newest electronics, gadgets, sporting goods, clothes, jewelry, art,

music, books, collectibles, gifts for everyone . . .

- ✓ Take care of your loved ones . . . easily accumulate a fortune for your future and theirs . . . and afford everything you want today?

Whatever the amount . . . I want you to know from the bottom of my heart — “The Greatest Business on Earth™” can allow you to create it.

Just a Few Minutes a Day to the **ULTIMATE FREEDOM.**

You can do it in addition to or instead of a full-time job. You can do it while you’re retired. But no matter how much time you choose to dedicate to it — it’s going to feel more like a “fun hobby” than work. I’m serious . . . you will actually ENJOY doing this.

And it takes JUST MINUTES A DAY. And you can do it anywhere there’s an Internet connection. You can even take a break for a week, or a month . . . or more! . . . and then come back to it anytime you want.

But there is a catch.

You see, your success depends on your ability to “think outside-the-box.” If you’re not used to thinking this way, I can teach you how. But if you already think differently than others . . . then **you’re already ahead of the game.** And you’ll be a natural at “GBE™” — “The Greatest Business on Earth™.”

And in less time than you can imagine, you could be living the life of your dreams!

So How Much Money **CAN** You Make?

The sky’s the limit! As I said . . . my company doesn’t take a cut of your income. You don’t owe us a cent of what you make. You have complete freedom to do exactly what you desire . . . just like if you earned a degree and went into your own practice.

But of course, with this, you don’t need a degree. You don’t need years of education. You don’t have to worry about finding clients, competing with others in your field, or any of the zillions of other hassles usually involved in running a practice or company.

In fact, you don’t need anything other than an ability to think

differently, the desire to make money, and the willingness to learn! If you have that, *YOU CAN DO IT!*

Again . . . I'm Living Proof!

You see . . . up until about 30 years ago, I knew NOTHING about making money.

Oh, I did read some books. I bought a real estate investing program I saw on TV. And I tried multi-level marketing for a time.

But there was always some sort of catch.

Usually you had to START OUT with a bunch of money in order to make a bunch. OR . . . you had to SPEND a bundle to be able to make any. Or it took so-o-o long to start seeing profits that the excitement died down before the thing could take off.

And in all of them you had to risk a lot to make a lot.

Yes . . . I've been through that ringer! But honestly, I'm grateful I went through it . . . because had I not learned those lessons, when I learned them, I may not be where I am today.

Listen . . . I know it's hard to believe you really can be wealthy.

I know it's hard to imagine never again having to depend on a job, a company, or anyone else for all your income.

I never imagined my life could turn out this way, either. But it just shows what can happen when you take that first step and TRY SOMETHING DIFFERENT!

If You're Ready to Start Making Money . . . Then It's Time for You to Do Something Different!

If you're not making enough money doing what you're doing now . . . If you need supplemental income to really enjoy your retirement . . . If you don't wake up every morning eager to start the day . . . If you spend more time worrying about money than enjoying it . . .

It's time to do something different. RIGHT NOW.

And you can start right here with your very first money-making lesson:

MONEY-MAKING LESSON 1

"How to Get Rich by Thinking Differently"

You've heard the expression "Buy low, sell high." It's the obvious way to make money in almost any business.

For example, if you were investing in baseball cards, real estate, or even the stock market . . .

you want to buy at the lowest possible price — then sell at a profit when the price goes up. “Buy low, sell high!” Right?

Same thing applies to most businesses: furniture, clothing, cars . . . you always want to buy your inventory cheap — then re-sell it at a higher price. “Buy low, sell high!” Makes sense . . . right?

And if you were shopping for a new computer, a pair of shoes, a set of golf clubs or anything else, you’d want to buy low — even if you had no plans to ever sell. Right?

It’s just basic, common sense. But as Frank Lloyd Wright said, “There’s nothing more uncommon than common sense.”

Most people don’t use common sense when dealing with their money. They don’t think with their heads. Instead, they follow their DESIRE and buy when prices are HIGH!

It’s just human nature . . . our natural human desire drives us to **want what’s in demand**. We are social creatures — it’s just the way we’re wired. Even if we know it’s crazy to buy at the top of the market, we’re just DRIVEN to do it.

Going to the movies is a perfect example. Tickets always cost the most . . . and the lines to buy those tickets are always the longest when the movie first comes out. *But guess what? THAT’S when everybody wants to go!*

The reason is simple: we are “social creatures” — and we are driven to “belong.” We want to feel like we’re “part of something.” *And we don’t want to be left out.*

Another example happens at Christmas time . . . The busiest shopping days of the year are the ones right before Christmas. Everyone knows traffic is going to be jammed . . . crowds are going to be heavy . . . and prices are going to be high.

We all “know that.” And yet . . . what do we do? We wait until those last few days before Christmas to get our shopping done!

It’s this sort of predictable “crowd psychology” that Hollywood producers, retailers, the stock market, and corporations bank on.

In fact, they spend billions on advertising to create the HEIGHTENED DESIRES that override your COMMON SENSE. All just to get you to buy when prices are HIGH.

So as you can see . . . Human Nature does NOI want to “buy low, sell high!”

But guess what?

If you want to make money, you have to learn to go against your human nature. You have

to think and behave in a way that is CONTRARY to instinctual desire and popular opinion.

You have to learn to be a Contrarian!

con-trar-i-an

kan-tre(a)rēan,kän-/

Webster's Dictionary defines "contrarian" as "someone who opposes or rejects popular opinion." I define it as someone who doesn't automatically say "YES" to what others think and do. Someone who doesn't let desire blind them to BIG PROFIT opportunity — and smart money management.

For example, what if instead of going to a movie on opening night, you waited a month? There might be no line at all, and you could have your pick of the best seats in the theater. Or, better still, wait a little longer and the entire family can watch it at home for just a few bucks!

What if you did your holiday shopping a month or two early? You'd avoid the crowds, skip the lines, get a good parking place, and get what you're looking for maybe even on sale!

Common sense, right?

Yet most people won't do it.

But Contrarians will.

Contrarians train themselves to think clearly, logically, rationally. I'm not saying we won't go see a movie on opening night. But if we do, *it's a decision we make ON PURPOSE*, instead of being mindlessly pulled along by greed, fear, or other unconscious emotions.

Mindful "contrarian thinking" sees opportunity where others see nothing.

A brilliant physiologist named Albert Szent-Györgyi once said something that I think is very applicable here:

"Discovery consists of seeing what everybody has seen and thinking what nobody has thought."

Think about that! Being able to look at the same things everyone else has been looking at — and yet, see something ENTIRELY DIFFERENT! That is the "essence" of what it means to be a contrarian! (*By the way . . . Györgyi won a Nobel Prize in Medicine in 1937 by seeing things differently.*)

I believe almost every breakthrough happens because someone goes out on a limb and tries a different way. They work hard to see things differently.

That's How Fortunes Are Made, Too.

But being a Contrarian doesn't mean you just automatically do the opposite of everyone else. That's just silly. Mindful contrarians don't buy just because no one else wants it and the

price is low.

Buying low doesn't guarantee that you'll be able to sell high. In fact, with many products and in many businesses, low prices can indicate that the opportunity has ENDED . . . it's over — it's too late — and the item will soon be history.

Make sense?

Which leads me to Lesson #2:

MONEY-MAKING LESSON 2

"The Basic Secret to *SERIOUS* Money-Making"

The secret to being able to BUY LOW, SELL HIGH successfully is very basic:

Prices need to be low, then high. In other words . . . price needs to go up and down. And down and up. *In other words, prices have to move.* And the faster they move, the greater your chances can be of making money!

The ONLY real, consistent, smart way I know to do this is with "The Greatest Business On Earth™." Because this business involves the basic, raw materials that are used by every manufacturer, every corporation, every country, every household. And they're used every day, every month, every year.

The raw materials I'm talking about are called "commodities." Commodities include cotton, sugar, wheat, rice, coffee, oil, gold, silver, copper, cattle, even orange juice. In other words . . .

The clothes we wear. The food we eat. The beverages we drink. The metals that go into our money, cars, buildings, jewelry. The gas we use to heat our homes, drive our cars, fuel aircraft and other transportation. The materials used to build, to fuel, to feed, to live.

These goods (commodities) are always needed, and their supplies are always varied. And that means their prices are constantly moving. Which is good news for me and you . . . because it means HUGE profit potential!

Imagine if you could get in on the profits made by these life-sustaining goods. And imagine if you could do it without having to grow, produce, sell, or handle any of these goods yourself! Well, you don't have to imagine it. Because I'm going to show you how to actually DO IT . . .

✓ **Without having to use any of your money while you learn how to do it**

- ✓ Without any business or investing or financial background
- ✓ **Without any unknown or out-of-control risk if you use a specific method I will teach you**
- ✓ Without having to go anywhere for work or meetings
- ✓ **Without really doing any “work” at all!**

It’s all very exciting. And it’s all very simple once you “get it down.” That’s why I say “The Greatest Business on Earth™” is:

The Easiest, Most Hassle-Free Way to Learn to Make a Lot of Money.

Now . . . before I go on, I want to make one thing very clear:

In your new business, you will NOT be interacting with farmers, or manufacturers, or grain, or pork bellies, or orange juice, or any of the actual commodities themselves.

Okay? Instead, “The Greatest Business on Earth™” is a money-making enterprise you can do from home (*or anywhere you want*) . . .

Yet it quietly impacts the entire world!

You see, the commodity markets give crucial economic support and protection to the producers and manufacturers who grow, produce, and manufacture the materials and products we all need to live.

And the commodity business offers YOU a way to increase your financial security, too. In fact, it’s the **ONLY** business I know that can be a true WIN-WIN for you!

- ✓ **It protects consumers.** The commodity markets stabilize prices for manufacturers so you and I don’t have to pay \$10 for a loaf of bread — even if wheat prices go through the roof.
- ✓ **It protects farmers.** The commodity markets help make sure that farmers won’t go out of business even if bugs or bad weather ruin their crops.
- ✓ **It protects manufacturers.** The commodity markets help companies lock in prices so they can stay in business even if product costs go up — without having to raise their prices sky high.
- ✓ **It protects YOU!** In addition to protecting your wallet by stabilizing prices . . . the commodity markets put YOU in the driver’s seat of your income.

That’s right! Unlike working at a job, running a retail company, investing in the stock market,

or relying on the government or on anyone else . . .

Your Income & Security Are Not At the Mercy of Wall Street, the Egos of Corporations, the Fickle Buying Habits of the Public, or Even Your Own Health, Life, or Family Issues.

In fact, if you want, you can even run your business from your bed! And unlike other businesses . . .

YOU are in control of how much you risk, how much you stand to make, and how much time you put into your business! And no matter what is going on in the world, people will always and forever **need the raw materials of life!**

So you never have to worry about being in an industry that could become obsolete. This business has been and ALWAYS will be around. The proof is right there on your kitchen table.

MONEY-MAKING LESSON 3

“Why You Will **NEVER** Run Out Of Money-Making Opportunities”

To show you just how important commodities are and why this is such a rock-solid business to be in . . .

Take a Minute to Try and Imagine a Day of Your Life Without Commodities!

In other words . . . without coffee . . . without the sugar you put in your coffee . . . without the bacon . . . without the bowl of cereal . . .

Do you heat or air condition your home or office? Or did you fill your car with gasoline today? Do you wear any silver or gold jewelry?

These ALL come from basic commodities! All right there on the table in front you. And here’s how you can learn to make money from them — without being in the business of any one of them!

For example, let’s talk about SUGAR.

It’s not hard to understand why sugar is such a popular commodity. Sugar has been around for hundreds of years, and will be here for hundreds more. I’m sure you know how many times a day sugar

crosses your table or your lips! It's in just about every food product there is.

With all that sugar being consumed, it's obvious that someone is making money in the sugar business! But how can YOU do it?

- ✓ You're certainly not going to plant a sugar cane field in your backyard.
- ✓ You probably don't want to bake and sell cookies or candy.
- ✓ You're not looking to buy a sugar beet farm . . . right?
- ✓ And you're definitely NOT going to tie-up your money in shares of a company that makes sugar-containing products, either.

Instead, you're going to do it a completely different way. Without dealing with the business of sugar itself. And without paying attention to what most people are doing — *except to see it as pretty much the opposite of what you want to do.*

You're going to do it with a very low-key, behind-the-scenes role in the world of commodity trading with all its great profit potential.

SUGAR is just one of the many commodity markets. There are dozens and dozens more — including gold, silver, oil, coffee, cotton . . . But since I have to pick one to show you how the business works, we'll use SUGAR.

In the lingo of the commodity world, one SUGAR contract controls 112,000 pounds of sugar. You see, in the commodity business, rather than deal with the actual commodities, we deal with contracts.

It's similar to how the stock market works. You don't "get involved" directly with the actual company . . . instead, you invest in shares of a company's stock.

Well, in "The Greatest Business on Earth™" you trade commodity contracts — rather than deal with the actual commodities themselves.

But unlike stock market investing, you don't have to tie up huge sums of money to get a lot of value and big profit potential! And I can even show you one method of trading where . . .

You Don't Have to Take Any Unknown Risks!

But let me start by giving you some of the basics. Let's imagine the price of SUGAR hits a super low

3 cents. That would mean one “contract” of SUGAR, which consists of 112,000 pounds, would be worth \$3,360 (*3 cents x 112,000 pounds*).

Now . . . \$3,360 sounds like a LOT of money to risk, right? But in “The Greatest Business on Earth™” you can “control” that contract *without having to lay out all that money!*

Because you’ll know how to do it using just a small deposit that gives you full ownership rights.

Sounds like a no-brainer for anyone looking to make money, right?

Well, here’s the surprising reality:

Instead of seeing these incredible opportunities as solid gold, most people mistake them for disasters! Because as I’ve said before, most people don’t think, act, or live with common sense.

Most people don’t “buy low, sell high.”

Most people CAN’T do it.

In fact, when SUGAR prices DID hit rock bottom years ago, the media “experts” cried gloom and doom. They actually told investors to “stay away from sugar!” They said it was bad news.

And Millions of People Missed Out On the Chance of a Lifetime to Make FORTUNES From the Low Price of Sugar

But folks like The Contrarian didn’t miss a thing.

Get this: Less than one month after sugar hit its lows, people who were doing the business The Contrarian’s way were making a windfall FORTUNE in SUGAR.

And in this business, fortunes can happen FAST!

In fact, when SUGAR was at 3 cents and the price went up just ONE CENT . . . a \$3,360 contract would jump \$1,120 in value.

That’s a Whopping 33% Profit for a SINGLE PENNY in Price Movement!

That’s a pretty substantial ROI! You could wait YEARS for that to happen in real estate or the stock market. But in this business, prices routinely will move 10-20% and much more — in weeks or even DAYS!

And what if the price goes down?

Well, let’s say the price of SUGAR had gone down. But how low could it go? Certainly not to ZERO. In fact, sugar producers would dump their crops in the ocean before they

EXAMPLES OF HISTORIC PRICE MOVES OR EXTREME MARKET CONDITIONS ARE NOT MEANT TO IMPLY THAT SUCH MOVES OR CONDITIONS ARE COMMON OCCURRENCES OR ARE LIKELY TO OCCUR.

gave them away! But what if they did?

Well . . . this would **decrease the supply**, which would **increase the demand**, and sugar prices would be forced to naturally rise as a result. *(This actually happened some years ago in the dairy business. Maybe you've seen footage of dairy farmers dumping milk into a ditch when prices fell to less than what it cost them to process the milk? . . .)*

You have the potential to make money whether prices go up OR down! To make money trading commodities, prices just have to move — up OR down. I can show you a specific way to trade that makes money on falling prices.

Plus, I'll show you another way to trade that makes it so even in the worst case scenario, *you only risk the amount of your small deposit.*

With how I teach you to do this, you never have to pay full price or buy a commodity contract outright. But you still stand to make all the money as if you did! And using one of the methods I'll teach you, *you can never lose more than the small amount of your deposit.*

It's like being able to drive home a new car and keep it for a certain period of time for just a small down payment. But instead of a car . . .

- ✓ You are “driving” a commodity contract that has the potential to increase in value — *and make you A LOT OF MONEY.* All in very little time.
- ✓ You have a very powerful, reliable way to accurately determine the profit potential of that contract.

Now compare that to the stock market . . . with stock market investing, you normally have to tie up a huge sum of money . . . and sometimes it's tied-up for years.

In fact, with almost ANY OTHER BUSINESS, you have to keep pumping in tons of money for ages before you know if you'll ever make a profit. And every bit of that money could end up going down the drain.

A recent article in Forbes reported that 8 out of 10 entrepreneurs fail within 18 months. The main reason? They run out of cash.

But with this business, that doesn't have to happen. Your risk can be limited and completely controlled — *by you!* Even better . . .

**I'm Going to Show You How to LEARN
This Business Using NO MONEY of Your Own**

MONEY-MAKING LESSON 4

“The Most Valuable Money-Making Tool On Earth”

By now you might be wondering how we know when the time is right to “BUY LOW” and then “SELL HIGH” in this business. The answer is one of the best-kept secrets in the money-making world.

It’s called a “price chart” — and each commodity market has its own price chart.

Until you know the secrets behind how to “read” a price chart, the following graphics won’t mean much to you. I remember when I first got started . . . these price charts all looked like some sort of heart rate or earthquake monitor to me.

But once you know what to look for, these charts will start to look like solid gold to you . . . for example, here’s a price chart for HEATING OIL.

Right now it probably looks like a box full of meaningless data, right? But once you know what to look for, *those lines and squiggles will actually help you understand where a market is headed.* With no confusion.

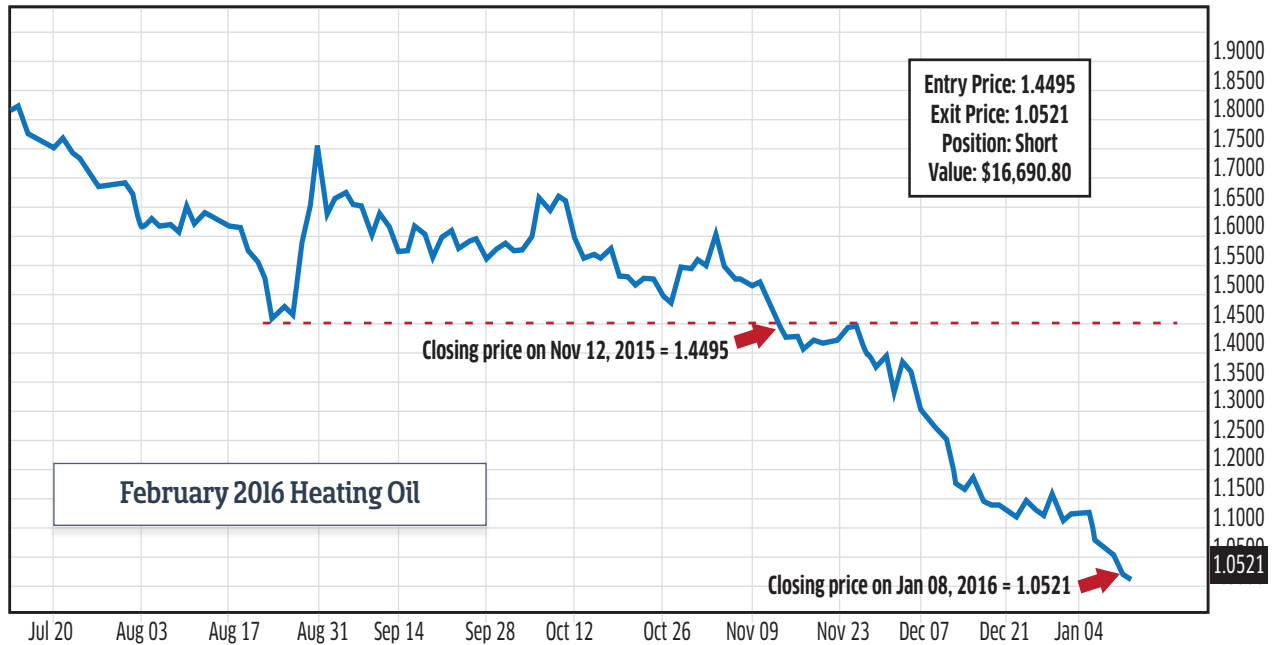

You’ll know, with confidence, what to do and when to do it.

It’s Like Putting On “X-Ray Vision Glasses” That Reveal the Secrets Hidden In the Charts

For instance, once you learn how to do it — you’ll realize that, when I look at that HEATING OIL chart . . . I don’t just see lines and squiggles. I actually see a “signal” for an upcoming price

move that ended-up being worth \$16,690.80 per contract — in just over 8 weeks.

And even new traders, with little experience, can take advantage of trades like this.

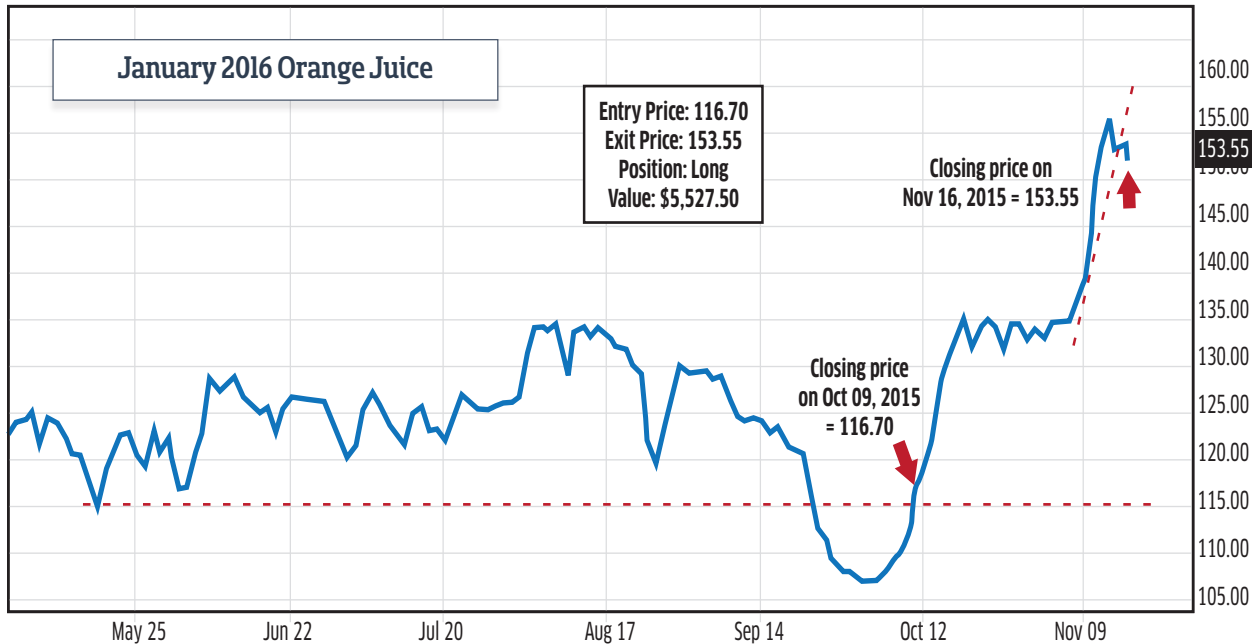

That \$16,690.80 price move is per contract. And that’s just ONE of dozens of commodity markets. *(Start multiplying and you can imagine the possibilities . . .)*

Now here’s a price chart for ORANGE JUICE from October, 2015:

THESE RESULTS ARE BASED ON SIMULATED OR HYPOTHETICAL PERFORMANCE RESULTS THAT HAVE CERTAIN INHERENT LIMITATIONS. UNLIKE THE RESULTS SHOWN IN AN ACTUAL PERFORMANCE RECORD, THESE RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, BECAUSE THESE TRADES HAVE NOT ACTUALLY BEEN EXECUTED, THESE RESULTS MAY HAVE UNDER-OR OVER-COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED OR HYPOTHETICAL PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN.

To the untrained eye — it’s not really very interesting or exciting. But to those of us who are in on “The Greatest Business On Earth™” — when we looked at that chart — we saw the potential for a price move that ended up being worth \$5,527.50 per contract in just over 5 weeks.

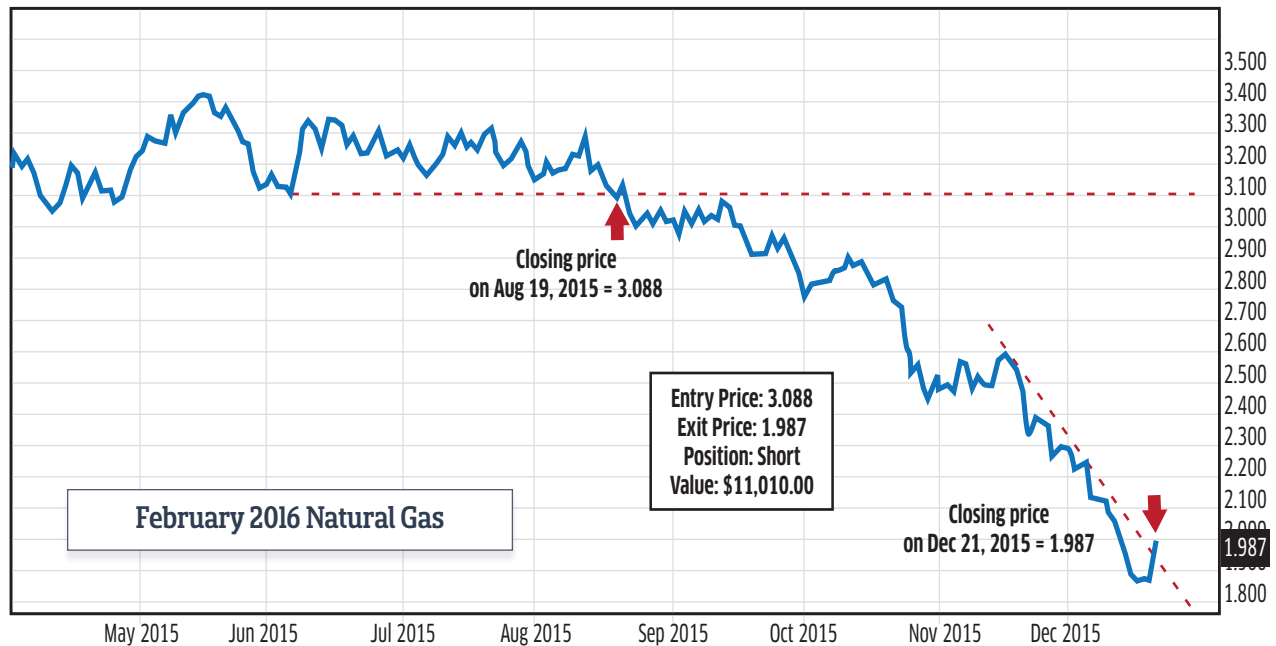

Here’s another example. If you knew what to look for on this price chart for NATURAL GAS . . .

THESE RESULTS ARE BASED ON SIMULATED OR HYPOTHETICAL PERFORMANCE RESULTS THAT HAVE CERTAIN INHERENT LIMITATIONS. UNLIKE THE RESULTS SHOWN IN AN ACTUAL PERFORMANCE RECORD, THESE RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, BECAUSE THESE TRADES HAVE NOT ACTUALLY BEEN EXECUTED, THESE RESULTS MAY HAVE UNDER-OR OVER-COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN.

. . . you would have seen the potential to take advantage of a price move worth \$11,010.00 per contract — in under 18 weeks.

It's simply a matter of knowing **WHAT** to look for . . . and then seeing it CLEARLY with "educated eyes" . . . **And I'll educate your eyes so you can see everything you need to see.**

Once your eyes are "educated" . . . from there, it'll be following **CONTRARIAN COMMON SENSE** . . . instead of relying on so-called "experts" who continue to mislead the public and cause widespread financial ruin.

As The Contrarian used to remind us

"NO ONE CARES ABOUT YOUR MONEY AS MUCH AS YOU DO"

Never forget this **YOU** have to be your own financial expert. **YOU** have to take control of your financial well-being.

And that's what you'll learn to do in "The Greatest Business on Earth™."

You simply can't rely on the financial media . . . the financial industry . . . the bankers, brokers, and advisors of America.

I'm sorry to say it, but they are all in it for the money they make from selling you investments, mortgages, and other forms of financial "security" — whatever will make THEM

SIMULATED PERFORMANCE RESULTS HAVE CERTAIN INHERENT LIMITATIONS AND DO NOT REPRESENT ACTUAL TRADING. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN.

THESE RESULTS ARE BASED ON SIMULATED OR HYPOTHETICAL PERFORMANCE RESULTS THAT HAVE CERTAIN INHERENT LIMITATIONS. the most money on commissions, advertising revenue, interest payments.

And what about the advice from so-called “objective” rating agencies or the media?

Well, back in 2008, right before the Ivy League geniuses on Wall Street wiped-out an estimated \$7 TRILLION in stock market value . . . we were all still being told there was “NOTHING TO WORRY ABOUT!”

Remember that?

That’s right. The major credit reporting agencies — Standard & Poors and Moody’s — gave high “approval ratings” to Bear Stearns, Lehman Brothers, Fannie Mae, and Freddie Mac — **right up to the day they all collapsed.**

All the while . . . Washington and Wall Street just sat-back on their hands and watched the show unfold.

The media went along for the ride.

And unfortunately, so did the rest of the country. And millions of American citizens lost their jobs, their homes, their retirement accounts, their home equity . . . simply because they TRUSTED these people and then acted and thought like everybody else did.

Big mistake.

But it’s not what Contrarians do.

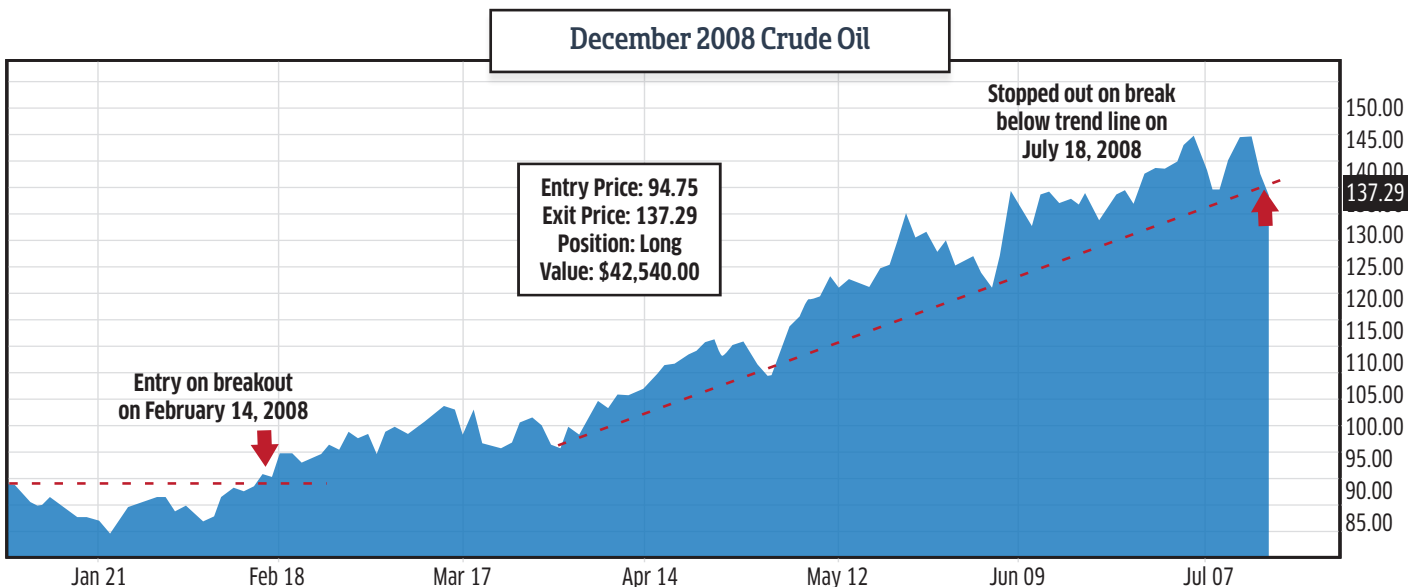

It’s not what WE do in “The Greatest Business on Earth™.”

In fact, in 2008 when the rest of the country was being led to financial ruin . . . we were able to calmly and confidently follow our charts. Same as always.

In “The Greatest Business on Earth™” (we call it “GBE™” for short), you don’t have to worry about recessions, depressions, market crashes, real estate downturns, corporate take-overs. Because this business keeps going as long as the earth keeps spinning . . .

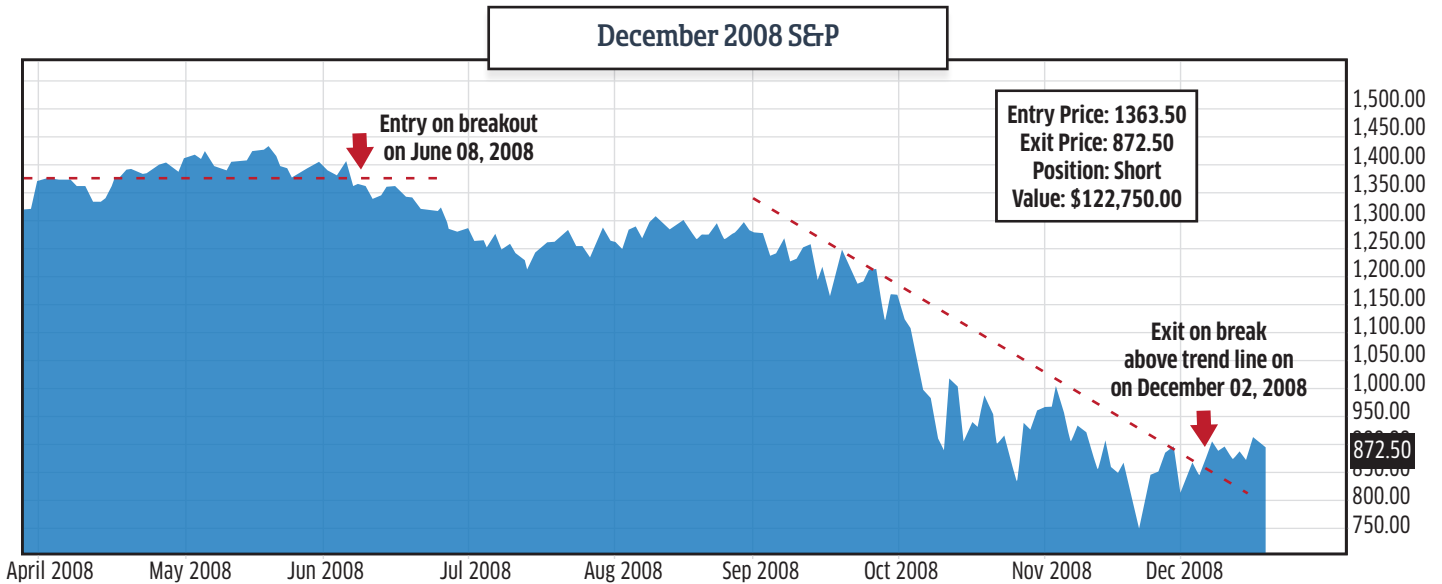

And our charts keep us on the right track, no matter what.

For example, if you knew what to look for in February 2008 . . . You could have taken advantage of a \$42,540.00 price move that occurred by July 2008 in CRUDE OIL.

SEE NOTE ON PAGE 40.

Or if you knew what to look for in June of 2008, you could have gotten in on a price move of \$122,750.00 per S&P contract that took place within just six months, all while the Stock Market was tanking.

And this was right in the middle of the 2008 financial disaster!

You can make money in this business . . .

. . . No matter what is going on in the economy . . .

. . . No matter what is being reported in the news . . .

. . . No matter what the money magazines say . . .

None of it matters.

As long as you use common sense and follow your charts, you'll have the ability to profit.

You can get started right now.

And I don't want anything to stand in your way. In fact, I don't even want you to have to make up your mind right now! . . . before you've had a chance to try it for yourself. So I'm going to take ALL THE RISK OFF THE TABLE . . . and I'm going to make you a very generous offer.

If you truly believe you have what it takes . . . I want to personally invite you to get started in this business. If you honestly want to take control of your financial potential . . .

1. My "Daily Alerts" Training Videos . . . **YOURS FREE!**

How much would you expect to pay to hire me as your own "Personal Money-Making Trainer?" Well, you're going to get me FREE . . . for 30 days.

I'll connect with you through daily online videos — each and

every weekday — and I'll show you the commodity markets I'm watching, and explain in crystal clear detail how to trade them.

On top of that, I'll show you **how to read your charts** . . . plus you'll learn my simple ways to increase your profits on every trade, minimize your risk at all times — and I'll teach you how to learn everything while using NO MONEY OF YOUR OWN!

You get a full month of these Daily Alerts with up-close-and-personal guidance to get you started in your very own money-making enterprise — FAST!

And please understand something:

These “Daily Alert” videos are NOT pre-shot, pre-canned, “generic” videos. **I make each video that very day!** So you'll be getting up-to-the-minute Alerts about the commodities I'm watching, and why I'm watching them.

It's not a fancy “broadcast quality” production like you see on TV . . . in fact, I produce the video myself. I also post the video to the Internet, and then I email a message that tells you a new Alert video has been posted and is ready to view.

I'm confident you'll find these Alerts to be a real educational gold mine . . . I'll be spoon-feeding you set-ups you can understand AND profit from, day in, day out. AND I think you'll find it to be a real breath of fresh air.

What do I mean?

Well — first of all . . . I don't do my Alerts like all the big-shot gurus do. I'm not out to impress “my peers” with fluffy, flowery, 5-dollar words and slick jargon . . . you know the kind of stuff that's simply irrelevant when it comes to actually making money?

I talk IN PLAIN ENGLISH . . .

And I talk to you like I talk to my friends . . . dangling participles and all. And that's the best . . . because that's exactly how we TALK in daily conversation.

The truth is, these video posts and trading Alerts are really my trading diary . . . it's my discipline to always be plugged into the markets, into the news, into the set-ups and perceptions that are taking shape out there.

And unlike the majority of subscription services out there — I do my Alerts mostly for my benefit. That may sound a little selfish — but when you realize that you get to “come along for the ride” and profit right along beside me . . . it's a pretty good deal.

In fact, as you'll see, becoming a part of this is one of the smartest things you can do.

***PLUS:* Because You'll Be Getting My “Alerts” There'll Be No Reason For You to Stay Glued to a Computer Screen All Day Long!**

My Alert is sent out before noon (Pacific Time) — every day the markets are open for

business. I have a life (by the way) which means I don't sit there glued to my computer screens all day long.

I typically review one chart of one market that is possibly setting up for a trading opportunity. I give you all the details of a potential trade, including where to look to enter and then exit the market, and how to protect your position.

Let me tell you . . . having access to these "Alerts" is like getting a treasure map each day! You will come to love and look forward to your email from Jim!

But my "Alerts" are just the start of ALL you get when you enroll in "The Greatest Business on Earth™"!

There's an old saying, "Give a man a fish, he eats for a day. Teach him to fish, he eats for a life time." Right?

Well . . . I don't want you to be dependent on me or on anyone else. I want you to be a success at this on your own! So in addition to the daily Alerts that explore a market and how it can be traded . . .

I will also send you all the educational tools you need to continue on your own with independence and success! So I'm also going to give you:

That’s right! If you’re willing to take action now — before July 15, 2016 — and start your 30-day test drive . . . here’s what I’m willing to do:

After your 30-day trial is done — and you decide to stick with me, I will completely and thoroughly FLATTEN your learning curve by doing something that will get you going FAST:

Once Your 30-Day Trial Membership Has Passed — I Will Get on a “LIVE Quick Start Career Launch” Webinar with You & My Other New Students & Map Out a Game Plan That Will Get You On the Fast Track to Having Success in “The Greatest Business on Earth™”!

So . . . after you’ve had 30 days to go through the training with a fine-toothed comb . . . you and I will get on a live Webinar together, along with a couple-dozen other like-minded

members . . . and we will map out the shortest route for you to take to start making money.

All you do is DEVOUR the training as soon as you get access to it — and then show up with any questions you have and LEARN!

If I were you — taking advantage of this is *an absolute no-brainer* . . . I'd step up to the plate and sign up before the deadline just to take advantage of this additional BONUS TRAINING for a couple of reasons:

1. This “Quick Start Career Launch” Webinar directly with me gives you the extra push you need to overcome the natural tendency to “put the training up on a shelf” and get to it later. After all, how many other courses do YOU have on your shelf that you're still planning on “getting to later” but haven't yet? *THIS is not one you'll want to wait to get to later . . . trust me . . .*
2. Getting a game plan put together to “quick start” your new career is the smartest thing you can do to get making money as soon as humanly possible. With a “game plan” in-hand, you're ten times more likely to succeed than those without a game plan — and . . .
3. You can't really put a price on what it's worth to be able to spend time “rubbing elbows” with someone who's already successful at what you're trying to do. It is . . . quite honestly . . . a short-cut you need. And I don't know of anyone besides me who is willing to spend their time doing as much as I do!

Now there is one problem with this whole “Quick Start Career Launch” Webinar deal . . . and it's this:

The Webinar technology I use will only allow me to have a limited number of students on the call with me at any given time.

And since this mailer is going out to a large number of people — it's super-important for you to enroll in your free 30-day trial before the deadline to make sure you get one of the limited available openings for the Webinar.

Sorry . . . there's just nothing I can do about it. And I can only afford the time to do one of these Webinars per quarter. Although I enjoy the time spent with new students — quite honestly — I'm plenty busy working with and coaching other students who are already finding success.

My point is — I don't want you to be disappointed and have to wait another 3 months to be able to attend a “Quick Start” Q&A Webinar with me. The limited openings will be snatched-up in NO TIME. Sorry . . . but I have no choice but to cut it off at that point — just because of our Webinar technology.

To make sure you get in . . . you'll need to order by July 15, 2016.

So, let's wrap this up . . .

Recently I was with a few dozen of my students at a get-together . . . and I told them all about this offer. When I told them everything that was included they agreed it was an amazing deal — a real chance for financial success with all the help needed to get started. They said the program was “priceless.”

But You’re Getting It **All FREE**

You get 30 days of Daily Alerts . . . plus all your materials, and access to your own personal Course Counselor. **Everything you need to make sure you succeed.** At no charge for 30 days. (*You pay just \$7.00 for shipping and handling.*)

Then, if you wish to continue, you pay the special discounted rate of just \$29.95 per month. And you may cancel at ANY time. That’s less than \$1.00 a day for all this intensive, money-making guidance, education, and cutting-edge market information.

But you pay nothing for your 30-day start-up training.

There’s no pressure. You really don’t have to make up your mind now if this really is the business for you. I want you to first try it and see if it feels right for you.

Go through the videos. Read the manual. Make sure it’s something you can do . . . and will enjoy doing. Even if you decide not to continue, you can keep the Course materials with no further obligation. And if you happen to make any money, that’ll be yours to keep, of course!

Here’s My Unusual, Almost Bizarre Reason Why I Am Making This Generous Offer:

I’ve always believed that the fairest, most honest way to introduce something new and exciting to people is not by running expensive TV commercials or ads in the Wall Street Journal.

It’s by giving away free samples.

With a “sample” in your hand, you can see it, hear it, touch it, and get the feel of it. After all, makers of cereals, soaps and shampoos do this all the time.

So why not this?

All I ask is that you cover the cost of shipping and handling to get your “free sample” to you. Besides . . . how could you possibly decide from a simple letter like this one whether a business like this is RIGHT for you or not?

It’s ridiculous to think it’s even possible.

So instead of selling anything to you, I want you to . . .

Try It All Out for 30 Days **Before** You And I Decide to Do Business Together . . .

Think about it . . . that puts all the responsibility on ME to deliver everything I’m promising

you — and more — in order to impress you to the point that you WANT to continue your relationship with me.

Don't you wish more business owners would do this?

It just makes good business sense if you ask me . . . and it also shows you just how confident I *really am* that you'll absolutely love it.

My point is simple: I want this to be a relationship based on mutual trust. I don't want you sending me your money until you trust me that "The Greatest Business on Earth™" is everything I've said it is . . . and that it's exactly what you've been waiting for.

So unlike any other business opportunities, investments, educational programs, franchises, network marketing, or home study courses . . . **I am not asking you to pay just to find out if you want to participate.**

Instead . . . I am GIVING YOU everything you need to get started . . .

- ✓ money-making instructions,
- ✓ support,
- ✓ guidance, and
- ✓ tools worth hundreds (even thousands) of dollars . . .

All for just the cost of shipping. Period. And if you decide you don't want to be involved, you may still keep everything I ship you as my gift to you.

I want you to see what this business is all about.

I want you to taste the thrill of being in control of your income.

I want you to walk around with that exhilarating feeling that comes from knowing how to make money ON YOUR OWN.

If you believe you have what it takes . . . **I want to give you the chance to prove it to yourself!**

There is no question that this is "The Greatest Business on Earth™."

The only question is:

How Much Money Do YOU Want to Make?

And how soon do you want to make it?

How wealthy DO you want to be? Imagine what you'll do with your money.

What will you buy?

How will you spend all that wonderful free time?

I really encourage and challenge you to think about it — and feel the excitement as if it's already yours. **Doing this sets the wheels in motion for huge results to come your way.**

It's been said "What the mind believes, you can achieve." In fact, experts say that 85% of the people who do write down the things they want get them! So take a minute now to write down 5 "Wish List" items here . . .

Don't hold back.

Go for the gold! Save this list -- and then later, take another look at it to see how many things came true. You may be amazed . . .

My Wish List

1. _____
2. _____
3. _____
4. _____
5. _____

Now know that all this (*and more*) can be on its way . . . because you are taking real steps to achieve your goals by getting started in "The Greatest Business on Earth™."

Listen . . . the truth is — we all know that "job security" is a thing of the past. It's something your parents' parents had . . . **but it's rare for anyone to have "job security" these days.**

Heck . . . you can work years building someone else's dream and then, suddenly, find *yourself out in the cold!* Even the best jobs rarely pay enough to cover your retirement, let alone pay the bills today. And the sad truth is . . . *most people retire cash poor.*

Well, the good news is there IS a way you can achieve true financial independence . . . working at home just minutes a day.

It doesn't require a lot of study — **it's laid out for you in crystal-clear detail** — it's a simple game plan that gives you the potential to make scads of money. If all this sounds good to you, you need to get "The Greatest Business on Earth™" in your hands now.

Period.

There simply isn't anything better.

It's the perfect way that everyday people can go out and make more money than they've ever made in their life. And that's exactly why I took over for The Contrarian to keep "The Greatest Business on Earth™" alive and well!

Listen . . . I was in your shoes once (*probably much worse off financially than you*). I struggled

and tried every way I could think of to make money.

I bought every get-rich-quick and motivational book I could get my hands on. I tried everything.

Then . . . I finally found the Commodity Business. I knew nothing about it at the time. After all that hard work and disappointing times . . . this seemed too good to be true. But it wasn't.

It was real.

And it still is. In fact, it works better than ever.

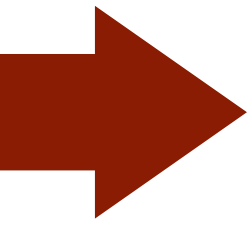

You see . . . “The Greatest Business on Earth™” really can put an end to your financial frustrations, and give you the financial boost you need — right away! It's a real-life, nuts-and-bolts, down-to-earth, step-by-step system for making serious money . . . time and time again.

“The Greatest Business on Earth™” has changed the lives of countless numbers of my students . . . now let it change yours.

If you're struggling with your finances — you can continue to muddle through . . . or you can take charge of your money situation by getting “The Greatest Business on Earth™” in your hands today.

So why put yourself through any more financial frustration?

Why wait any longer?

Consider this: If you knew that \$7.00 and a couple of hours of dedicated study is ALL that stood between you and fulfilling every financial dream you've ever had . . . wouldn't you feel DUMB if you DIDN'T at least give it a try?

The worse that can happen is that it just isn't “your cup of tea.” **And so you don't stick with it — and you'll move on to find something else!**

If you don't at least give this your best shot — **you'll spend the rest of your life wondering how much money you might have missed out on simply because you passed on a measly \$7.00 opportunity.**

Looking at it this way — you really can't afford not to at least apply to get started today.

So why not invest in your ability to take control of your financial destiny . . . improve your lifestyle, and make more money?

Look, and I'm just being honest here . . . you honestly DO have the potential to make as much money as you want.

So, give it a try.

Remember . . . You Risk Nothing.

Just try it out for 30 days — and see how it FEELS to actually DO something this exciting. Find out that this is everything my Course Members and I say it is. Experience the fun of “the easiest, most hassle-free way to make a lot of money without risking one thin dime of your own.”

Try it for yourself for FREE and then decide — and if for any reason you're not completely thrilled, simply let us know any time during your 30-day trial period and your opening will be given to someone else with no hassles or headaches.

No questions asked.

The bonus gifts — and all the knowledge you gain in the process — are yours to keep forever — with no further obligation.

I make this risk-free offer for one reason only:

I truly believe “**The Greatest Business on Earth™**” is the best way ANYONE can achieve financial security. I know that if you'll just give it this 30-day trial, you'll start to see for yourself just how “doable” it is for you.

The money is yours — but only if you reach out and take it. The truth is, most millionaires are SELF-MADE. Their wealth was not inherited, won in a lottery, or found at the end of a rainbow.

Fortunes are made by people who use their time and energy to create — rather than using it to complain. Think about it this way:

Create or Complain?

It's Your Choice! But Get This . . .

It Takes the Same Amount of Time to Make Money In the Commodity Business as It Does to Sit Around & Fret Over Bills (*Probably Less!*)

If you'll devote as little as a few minutes a day to the easy steps I outline in my training, you'll truly have the potential to *be as wealthy as you desire*.

And you can prove it to yourself. That's why I'm letting you go through this thoroughly and

completely for a full 30 days to make sure it's "up your alley."

It's your chance to "kick the tires" and make sure it's everything I promise before you make up your mind. So, reality is . . . you don't even make up your mind right now . . .

Go ahead and get my training first, take it for a 30-day "test drive" — and prove to yourself that it's everything I've said it is. Then, if you wish to continue, you pay the special discounted rate of just \$29.95 a month for access to all the online tools and charts, my alerts and newsletters and training videos, and access to the Course Counselors. And you may cancel at ANY time.

That's less than a \$1.00 a day for all this intensive, money-making guidance and education. But you pay nothing for your 30-day start-up training.

Again, if you're not completely blown away by the opportunities described in "The Greatest Business on Earth™," just let me know any time during your 30 days and we'll part friends . . . with no hassles at all.

And you don't even have to send anything back. It's all yours to keep — and even make money with — just as my "thanks" for giving this a whirl.

Don't you wish EVERY company would do business like this? *It really makes a LOT of sense when you stop and think about it . . . doesn't it!?*

I look forward to helping you achieve your financial goals. If you have any questions, please feel free to phone. I welcome your call.

Warmly,

Jim Prince

P.S. I want to make sure you understand — this isn't a "get rich quick" fantasy. Look back at the examples throughout this book, and you can see this is a real chance to have your own business, doing something enjoyable that takes just a few minutes a day.

And you can get started FREE. *That's a rarity in the world of business.* In fact, according to the U.S. Small Business Administration, most businesses cost around \$30,000.00 to start! That's just to OPEN THE DOORS! And most people borrow the start-up funds from family or friends . . . going into debt for a chance to TRY to make money.

Frankly, that's just crazy.

I want you OUT of debt. I want you filling YOUR bank account with

money fast. I want you enjoying family and friends, not avoiding them because you owe them thousands of dollars! I want you to have financial FREEDOM. And that's what I'm offering you, with your very own "Greatest Business on Earth™".

- ✓ You can learn how to do this business using NO MONEY.
- ✓ You can EARN as you learn.
- ✓ And you can begin NOW, with no obligation.
No long-term commitment. No pressure!

For 10 years "The Greatest Business on Earth™" has been one of the best-selling money-making systems in the world. And it's so easy . . .

Think of it.

You get all you need to begin succeeding in the commodity-trading business starting the very first day you get the training materials in your hands!

You have the potential to make as much money as anyone else, and I'm going to give you the tools you need to make that happen. "The Greatest Business on Earth™" is going to work for you or you will be out NOTHING but a little bit of your time, and a measly \$7.00.

I want you to see for yourself that my course is even better than you imagined . . . and if it's not for you — we'll part friends, and it will have cost you

BEING A SUCCESSFUL PAPER TRADER DURING ONE TIME PERIOD DOES NOT MEAN THAT YOU WILL MAKE MONEY WHEN YOU ACTUALLY INVEST DURING A LATER TIME PERIOD. MARKET CONDITIONS CONSTANTLY CHANGE. WHEN INVESTING IN THE PURCHASING OF OPTIONS, YOU MAY LOSE ALL OF THE MONEY YOU INVESTED. WARNING: FUTURES AND OPTIONS TRADING INVOLVES HIGH RISKS AND YOU CAN LOSE A LOT OF MONEY. ACCORDING TO MANY EXPERTS, MOST INDIVIDUAL INVESTORS WHO TRADE COMMODITY FUTURES OR OPTIONS LOSE MONEY. JIM PRINCE IS AN EMPLOYEE OF GBE AND HIS REPRESENTATIONS MADE HEREIN ARE MADE IN HIS CAPACITY AS SUCH. YOU SHOULD CAREFULLY STUDY COMMODITY TRADING AND CONSIDER WHETHER SUCH TRADING IS SUITABLE FOR YOU IN LIGHT OF YOUR CIRCUMSTANCES AND FINANCIAL RESOURCES BEFORE YOU TRADE. THESE RESULTS ARE BASED ON SIMULATED OR HYPOTHETICAL PERFORMANCE RESULTS THAT HAVE CERTAIN INHERENT LIMITATIONS. UNLIKE THE RESULTS SHOWN IN AN ACTUAL PERFORMANCE RECORD, THESE RESULTS DO NOT REPRESENT ACTUAL TRADING. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. THE RISK OF LOSS IN TRADING COMMODITY FUTURES AND OPTIONS CONTRACTS CAN BE SUBSTANTIAL. THERE IS A HIGH DEGREE OF LEVERAGE IN FUTURES TRADING BECAUSE OF THE SMALL MARGIN REQUIREMENTS. THIS LEVERAGE CAN WORK AGAINST YOU AS WELL AS FOR YOU AND CAN LEAD TO LARGE LOSSES AS WELL AS LARGE GAINS. - 2.** You can keep doing things the way you've always done them — and hope things magically “get better” . . .
- 3. Or, you can TAKE CONTROL of your future — and get the guidance, education, and tools you need to build personal and financial freedom for the rest of your life.** This is a HUGE decision — one that can have pay-offs for years and years to come!

Frankly, as far as I'm concerned, only one of these choices makes any sense at all. Please — for your own sake — join me. I want to help you create a more successful financial future right now.

Think of it like this:

Now That You're Aware This Opportunity Exists, Don't You Think You Owe It to Yourself to At Least Give It a **TRY?**

That's all I'm suggesting you do . . . just take 30 days to give it a TRY. Look . . . you've put this off long enough — and delaying it any longer may cost you your financial freedom.

It's time to ACCEPT this risk-free invitation to join me in **creating a retirement future full of hope and prosperity for you and your loved ones.** Please — if your financial security means anything to you — start your free 30-day trial right away.
